UPDATE: Extra lights will be available at track. Jim Lewis, VP of Sales for StreetFX will be in the Four Feathers Racing trailer with ElectroPods and Light Strands for all eligible riders.

Street FX produces Hi Bright Red Electropods. Four of these small modular 12-volt LED pods have a wide viewing angle and easily mount most anywhere with included 3M twin stick foam tape or can be hard mounted into the snap in mounting bracket that is included. The 12 volt LED light pods have an extremely low current draw so they will work with all electrical systems.
