

AMA Pro Road Racing Competitor Bulletin #2010-15

To: All AMA Pro Road Racing Competitors
Date: July 2, 2010
Effective Date: Immediately
Subject: **Mazda Raceway Laguna Seca Parking Credentials and Radio Frequencies**

Mazda Raceway Laguna Seca Parking Credentials

Please be advised that your permanent parking credentials **will not** be honored at the Mazda Raceway Laguna Seca event scheduled for July 23rd – 25th.

Parking at this event is extremely limited and the promoter has graciously provided us with a small supply of parking credentials to be issued to each Team participating in this event.

Each Team Entrant will be issued a pre-determined supply of parking credentials that they alone will be responsible for distributing to their team members at their own discretion.

All parking credentials must be signed for and will only be issued to the Team Entrant. If the entrant is unavailable to sign for the parking credentials, they may designate a representative to sign for them by sending an email to Becki Edmondson at bedmondson@amaproracing.com. Photo IDs will be required for signature and pick-up.

Please encourage everyone on your team to car-pool or make alternate arrangements as there is simply not enough parking to go around.

There will be free parking available in the purple lot on Thursday and Friday but that lot will be for pre-paid parking only on Saturday and Sunday. You may contact the promoter directly for shuttle information or to purchase pre-paid parking credentials for Saturday and Sunday by visiting their website at <http://www.mazdaraceway.com>.

If you are pre-entered for Mazda Raceway Laguna Seca and are going to be at Mid-Ohio as well, you may stop by registration at Mid-Ohio and pick up your parking credentials for the Laguna event. This will save you a trip to the Embassy Suites hotel to pick them up in California.

There will be **NO** replacement parking credentials available for any reason, so please exercise due care with them once you pick them up.

Radio Frequencies

It is mandatory for all Team Entrants to submit your team radio frequencies for the Laguna event to AMA Pro Racing. Please respond directly to David McGrath with your team's information at dmcgrath@amaproracing.com no later than July 14th.
