

AMA Pro Road Racing Competitor Bulletin #2010-16

To: All AMA Pro Road Racing Competitors
Date: July 21, 2010
Effective Date: Immediately
Subject: Daytona SportBike and SuperSport Tires at Mazda Raceway Laguna Seca

Per the AMA Pro Racing Road Racing rule book, all classes being run at Mazda Raceway Laguna Seca will be allotted tires based on a single race weekend. Please reference page 31, item 3.16. This allows all **Daytona SportBike** competitors **5 front tires and 7 rear tires**. It allows **SuperSport** competitors **3 front tires and 4 rear tires**.

At the recently held AMA Pro event at Mid Ohio our tire partner Dunlop introduced a new front tire specification for both DSB and SS. It was hugely successful and immediately favored by most competitors.

Due to the popularity of the new tire and the large amount of entries in both Daytona SportBike and SuperSport at Mazda Raceway Laguna Seca there will be a limited quantity of the new front tire specification available.

AMA Pro Racing advocates fair competition and transparency in its rule making. Adhering to those guidelines, Dunlop and AMA Pro Racing will allow each **Daytona SportBike** competitor to have a maximum of **3** of the new front specification and all **SuperSport** competitors to have a maximum of **2** of the new specification. The balance of the front allocation is at the discretion of the competitor.
