

Technical Bulletin #2009-04

To: All AMA Pro Flat Track Competitors
Date: August 26, 2009
Effective Date: Immediately
Subject: Changes and Additions to the AMA Pro Flat Track

1.22 Weight Limits and Weighing Procedures

- k. All chassis ballast must be fixed to the frame. Under no conditions is it allowable to add chassis ballast as rotating mass outside of normal balancing procedures. Any type of fluid in the tires used as ballast is not permitted.
