

## **Technical Bulletin #2009-05**

**To:** All AMA Pro Flat Track Competitors  
**Date:** October 1, 2009  
**Effective Date:** Immediately  
**Subject:** Rear Wheel Assemblies

---

For the remainder of the 2009 AMA Pro Flat Track season, no rear wheel assembly (i.e. wheel, sprocket, rotor and tire combination) may weigh in excess of 36 lbs.

In 2010, this will not be regulated as long as the wheel is commercially available and is constructed such that there is no removable ballast.
