

Technical Bulletin # 2021-02 Advancement Wildcard Entry

To: All Progressive AFT Competitors

Date: 2/26/2021

Effective Date: Immediately

Subject: Advancement Wild Card Entry for a Second Class in the Same Event

Following consultation with riders and team owners, AFT has determined that allowing qualified riders to enter a second class at a limited number of events will provide competitors and teams with valuable opportunities to evaluate the move to a higher class.

Starting with the Volusia Half-Mile doubleheader, riders may petition AFT to enter a second class (AFT Production Twins or Mission SuperTwins only) at up to six (6) event weekends during the 2021 season. Riders must meet all license requirements for the class and will be responsible for paying entry fees as well as any additional costs associated with upgrading their rider license.

The following modification to the 2021 Progressive American Flat Track Rulebook is effective immediately:

Rule 1.4 Rider Classification and Eligibility

a. Rider Classification.

- v. Riders are limited to riding in only one class during any event day *unless they have been granted an advancement wildcard entry into AFT Production Twins or Mission SuperTwins. An advancement wildcard entry may only be used at six (6) event weekends in the current season. A doubleheader weekend will be considered one event. Riders applying for an advancement wildcard entry must meet all current licensing requirements for the second class.*
