AMERICAN FLAT TRACK OVERVIEW

American Flat Track is the world's premier dirt track motorcycle racing series and one of the longest-running championships in the history of motorsports. Sanctioned by AMA Pro Racing in Daytona Beach, Fla., the series is highly regarded as the most competitive form of dirt track motorcycle racing around the globe.

Professional flat track racing has been experiencing a renaissance in recent years. Prior to the onset of the COVID-19 pandemic, the sport was set to begin an expanded, multi-year TV deal with NBC Sports including live coverage on NBCSN which would attract millions of new fans to the sport. Despite the recent growth of the sport, the nature of AFT's business model and the financial realities of conducting the races make it impossible to host events without spectators.

As states across the country continue to expand their reopening plans, American Flat Track has prepared for the day when fan-attended events become a reality. Following other major motorsports organizations such as NASCAR and IMSA, AMA Pro Racing will work with government agencies at the state and local level to ensure adherence to all guidelines from the CDC, Department of Health and other organizations as required. By developing this Event Operational Protocol, American Flat Track will return to competition with a responsible plan to ensure the safety of its constituents and the fans residing in the communities they visit.

For more information on American Flat Track, please visit <http://www.americanflattrack.com>.

ABOUT AMA PRO RACING

AMA Pro Racing is the governing body for professional motorcycle racing in the United States. From its headquarters in Daytona Beach, Fla., the company sanctions a full schedule of events and championships for a variety of motorcycle disciplines.

Learn more about AMA Pro Racing at www.amaproracing.com.

PLAN OVERVIEW

AMA Pro Racing has developed a comprehensive plan to return to racing in a safe, responsible manner. Every aspect of how AMA Pro Racing conducts a race event has been modified to align with The Centers for Disease Control and Prevention (CDC) guidance to minimize risk of COVID-19 exposure and spread. These guidelines were developed in close consultation with a panel of medical experts with broad experience in infectious diseases, many of whom have been on the front line in treating COVID-19 patients across the country.

AMA Pro Racing's Event Operations Protocol centers on four interconnected pillars: (1) robust medical screening, (2) social distancing and compartmentalization, (3) constant disinfecting/cleaning and (4) detailed contingency plans to address potential emerging infection.

MEDICAL SCREENING, PPE AND HEALTH & SAFETY GUIDANCE

AMA Pro Racing has mandated a strict medical screening strategy for every individual entering the venue. Masks and/or face coverings will be required at all times. If an individual does not have an acceptable face covering, one will be provided.

Race Teams/Employees/Vendors: Prior to our return to the track, organizations (race teams, racing support service providers, vendors, partners and alike) will identify their essential personnel based upon the allocations of eligible participants allowed by AMA Pro Racing. Those personnel will be screened by their organizations well in advance of the event day and are required to familiarize themselves with the CDC guidance on COVID-19 prevention best practices as well as state and local directives in the event area. Upon arriving at the track, all personnel will be screened by AMA Pro Racing outside the facility before being granted access to the venue. If medical authorities have concerns at any time about an individual's suitability to participate, that person will be denied access to the event until cleared by their personal physician.

Fans: Upon arriving at the track, all fans will be screened outside the facility before being granted access to the venue. If medical authorities have concerns at any time about an individual's suitability based on CDC guidelines, that person will be denied access.

SOCIAL DISTANCING AND COMPARTMENTALIZATION

Race teams, employees, vendors and fans will be socially distanced and compartmentalized. Entering and exiting the track will be executed in a sequenced manner, with fans, staff, employees and vendors assigned specific times to arrive and depart in a controlled, staggered manner to prevent large gatherings of people in any one place. Race day crowd will be limited in accordance with federal, state and local guidelines.

DETAILED CONTINGENCY PLANNING

Working with medical and government authorities, AMA Pro Racing has developed detailed procedures to address potential emerging infections. During pre-entry screening, AMA Pro Racing will provide an on-site secondary assessment to determine if an individual will be allowed to access the facility. If any individual develops symptoms during the event day, medical resources inside the facility will be prepared to isolate that individual and a disinfecting / decontaminating response will be implemented to ensure vehicles, equipment and work areas are quickly cleaned. In accordance with state and local mandates, AMA Pro Racing will rapidly notify public health officials and others potentially impacted by a suspected case.

AMA Pro Racing will return in an environment that will ensure the safety of our competitors and those in the local community. Compliance with the requirements and procedures outlined in the Event Operations Protocol is critical to our collective success.

For feedback related to this document, please email eventoperations@amaproracing.com.

This Event Operations Protocol is intended as a communications document to provide the industry guidance on changes in operations and protocols for AMA Pro Racing events. Adherence to any recommendations included in this Protocol will not ensure the health and safety from transmission of COVID-19 in every situation. Furthermore, the recommendations contained in this Protocol should not be interpreted as setting a standard of care, or be deemed inclusive of all proper methods of care nor exclusive of other methods of care reasonably directed to obtaining the same results. This Protocol reflects the best available information at the time it was prepared. Future CDC, OSHA or medical professional guidance may require revisions to the Protocol based on new information. Policies and protocols may be superseded by emerging federal, state and local restrictions. AMA Pro Racing does not and cannot warrant the completeness of the Protocols and assumes no responsibility for any injury or damage to persons or property arising out of or related to any use of this Protocol or for any errors or omissions.

ATLANTA SUPER TT OVERVIEW

AMA Pro Racing will work with Atlanta Motor Speedway and government officials to ensure that the venue will be ready to provide the safest possible experience for Progressive American Flat Track fans in attendance. Amended safety protocols and procedures will be in effect that include:

- Enforcing a limited venue capacity in accordance with federal, state and local guidelines
- Strict adherence to the CDC-recommended 6' social distancing will be mandated onsite
- Face coverings required, and masks will be provided for all individuals who do not have a face covering
- A sequenced ingress/egress procedure into the facility property/gates will be used to minimize large concentrations of personnel or guests
- Each guest will be screened prior to entering the event gates; initial screening will include a non-contact temperature check
- Entry and exit to the grandstands, along with routes to concession stands and restrooms will adhere to social distancing guidelines
- Multiple handwashing and hand sanitizing stations will be placed throughout the venue and entrances
- A cleaning staff, clearly identified for guests, will be cleaning or disinfecting at all times
- Strategically placed signage will be placed throughout facility to reinforce health and safety measurements including but not limited to physical distancing ground graphics, health and safety a-frame signage, and social distancing/health and safety signage throughout restrooms and concession areas.
- Regular PA/Jumbotron announcements will enforce health and safety messaging throughout the event.
- Cashless transactions preferred. Accepted forms of payment: Debit, Visa, Mastercard, American Express, Discover.

COVID-19 AWARENESS AND TRAINING REQUIREMENTS

The health and safety of our fans, competitors, employees and the communities in which we race has been AMA Pro Racing's top priority since the pandemic began and will remain so as we return to competition in a responsible manner. It is critical that every individual follows the guidelines in AMA Pro Racing's Event Operations Protocol to ensure a successful resumption of racing activities and to reduce the risk of COVID-19 transmission.

Prior to participating in an AMA Pro Racing Event, every employee, supporting vendor and member of the racing industry must familiarize themselves with the CDC recommendations regarding prevention of COVID-19, state and local directives specific to the Event area and the processes and procedures outlined in the Event Operations Protocol.

Employees and vendors must verify that every member identified to attend an American Flat Track event has completed the COVID-19 Awareness and Training Requirements before arriving at the venue.

The Promoter of the event will integrate appropriate COVID-19 prevention messaging into pre-event fan information, reinforcing the efforts of local and state public health officials.

CDC EDUCATION RESOURCES

The Centers for Disease Control and Prevention has an [information hub](#) that includes comprehensive guidance for operating in COVID-19 threat environments. At a minimum, participants will familiarize themselves with the following CDC guidance:

- [People Who Need to Take Extra Precautions](#)
- [People Who are at Higher Risk for Severe Illness](#)
- [How to Protect Yourself and Others](#)
- [COVID-19 Symptoms](#)
- [What to Do if You are Sick](#)

STATE AND LOCAL DIRECTIVES

AMA Pro Racing will provide participants and stakeholders with applicable state and local directives in advance of each Event. Each organization is responsible for ensuring that their members have familiarized themselves with these directives prior to traveling to the Event location.

TRAVEL GUIDANCE

CDC guidance remains to stay at home as much as possible and practice social distancing. AMA Pro Racing strongly recommends avoiding public transportation as much as possible. In accordance with CDC guidance regarding essential travel, participants driving to American Flat Track Events are recommended to:

- Wear a cloth mask anytime you leave your home.
- Minimize contact with others (limit carpooling or using vans to transport multiple passengers in a single vehicle).
- Anticipate needs before departing your home to minimize unnecessary stops which could increase your exposure risk.
 - Pack non-perishable food and water for the trip.
 - Have alcohol-based hand sanitizer readily available in your vehicle.
- Travel directly to the Event location and return directly to your home after the Event.

Do not travel if you are sick or plan to travel with someone who is sick. Please do your part and travel responsibly. Do not fly when you can drive. Do not pack people into minivans and SUVs. Everyone in the vehicle is to wear a mask at all times.

USE OF PERSONAL PROTECTIVE EQUIPMENT

This Event Operations Protocol includes personal protective equipment requirements for all participants, staff, vendors and fans at American Flat Track Events.

- Facial coverings will be required for all fans.
- Facial coverings will be required for all participants and staff.
- In accordance with CDC recommendations, it is strongly recommended that a cloth mask be worn anytime a person is outside their home.

RESPONSE TO POTENTIAL EXPOSURE

In the event of a potential exposure situation, detailed procedures for participants and organizations are outlined in the Event Operations Protocol.

- Organizations must immediately report to AMA Pro Racing if a participant receives a lab-confirmed positive diagnosis of COVID-19, and should immediately conduct extensive contact tracing to determine if other individuals may have been exposed to the infected person and should contact their personal physician, seek testing and/or self-isolate.
- Organizations must also report to AMA Pro Racing if they have directed a participant to self-isolate and/or seek testing due to the onset of COVID-19 symptoms away from an event, and should immediately conduct extensive contact tracing to determine if other individuals may have been exposed to the potentially infected person and should contact their personal physician, seek testing and/or self-isolate.
- Reports of suspected or confirmed COVID-19 cases within the industry may be submitted to AMA Pro Racing. Participants must be familiar with requirements for cleaning and disinfecting vehicles, equipment and work areas as outlined in the Event Operations Protocol.
- A comprehensive guide prepared by the Occupational Safety and Health Administration regarding best practices for workplace cleaning related to COVID-19 can be found at this link:
<https://www.osha.gov/Publications/OSHA3990.pdf>

PERSONAL PROTECTIVE EQUIPMENT (PPE)

To help ensure the safety of all participants at an Event and in accordance with CDC recommendations, AMA Pro Racing has implemented requirements for the wear of personal protective equipment (PPE) for all personnel. AMA Pro Racing has worked with numerous vendors to acquire PPE and will assist all organizations directly involved in race Events.

PPE REQUIREMENTS FOR COMPETITORS

All participants, staff and vendors will be required to, at a minimum, wear cloth masks at Events and it is highly recommended that they be worn during any preparation prior to the Event.

PRE-EVENT *(before initiating travel to the event site)*

- AMA Pro Racing will assist organizations in sourcing the minimum PPE supplies needed to resume operations as needed.
 - [How to Protect Yourself and Others](#)

PRE-ENTRY *(Upon arrival at the track before entering the facility)*

- It will be mandatory for all participants, staff and vendors to wear a cloth face mask before beginning the pre-entry screening process.

DURING THE EVENT *(After accessing the facility through the completion of the race)*

Race teams are expected to provide PPE for all members listed on their associated roster(s).

- AMA Pro Racing understands that obtaining PPE may be difficult and will have a limited supply of PPE available for those who need it at track.
- Items will be available, in a limited capacity, at the arrival screening location if an individual requires them.
- Hand washing and hand sanitizer stations will be deployed throughout the facility.
- Sanitation teams will be constantly wiping and disinfecting surfaces in any area with fans, employees or vendors.
- **Event participants are required to wear a cloth mask at all times while at the venue.** This includes but is not limited to:
 - Race team members in the pit area unless face is covered by appropriate safety gear.
 - AMA Pro Racing Officials unless face is covered by appropriate safety gear.
 - All Track/Race Services workers when the face is not covered by appropriate safety gear including, but not limited to, when not responding to an incident and immediately following completion of response actions.
 - Broadcast partner personnel covering the Event.
- In addition to the safety requirements specified in the American Flat Track Rulebook, riders must wear a cloth mask at all times prior to getting on their motorcycle for the start of the race at which time the mask will be replaced by the rider's helmet.
 - If a rider is involved in an accident or otherwise unable to complete the race and track services personnel respond, the rider must continue wearing his/her helmet until a safety worker provides an appropriate face mask for the rider.

POST-EVENT *(Prior to departing the track after the Event concludes)*

All fans, race teams, employees and vendors will be required to remove all PPE utilized during an Event in a safe and appropriate manner, this includes taking care to avoid touching eyes, nose, and mouth during removal.

- [CDC Guidance: PPE Removal](#)
- Hands should be washed immediately after removing PPE.
- Reusable face masks should be appropriately stored during travel and laundered upon return home.

NOTE: If multiple people are traveling in the same vehicle then a face mask must be worn during travel.

PPE REQUIREMENTS FOR FANS

MANDATORY MASK REQUIREMENT

- Masks or face coverings will be required throughout the facility. Masks will be provided to all individuals who do not bring an appropriate face covering.

PRE-EVENT *(before initiating travel to the event site)*

- Fans and stakeholders will receive advance communication outlining mandatory mask policies/procedures promoting thoughtful planning and advising those who are sick or at-risk to stay home.
- Pre-event communications will be sent to all attendees regarding the face covering mandate.

PRE-ENTRY *(Upon arrival at the track before entering the facility)*

- It will be mandatory for all fans to wear a cloth face mask before beginning the pre-entry screening process.
- Signage regarding face coverings will be posted in parking lots, entry gates and throughout the facility.
- All fans visiting the Event will undergo medical screening prior to entering the venue. All individuals will be temperature screened with a contactless thermometer, and those with a fever or experiencing COVID-like symptoms will not be allowed in the venue.
- On-site signage will clearly state the mandatory mask requirement and reinforce health and safety measures throughout the Event including but not limited to physical distancing ground graphics, and health and safety a-frame signage.

DURING THE EVENT *(After accessing the facility through the completion of the race)*

- Face coverings are required throughout the facility.
- Hand washing and hand sanitizer stations will be deployed throughout the facility.
- Installation of plexiglass barriers between customers and working staff or use of face shields will be implemented where possible.
- Sanitation teams will be constantly wiping and disinfecting surfaces in areas fans, employees or vendors.
- Strategically placed signage throughout facility to reinforce health and safety measurements including but not limited to physical distancing ground graphics, health and safety a-frame signage, and social distancing/health and safety signage throughout restrooms and concession areas.
- Regular PA/Jumbotron announcements will enforce health and safety messaging throughout the event.

TRAVEL GUIDANCE

EVENT ROSTER PERSONNEL

- Only personnel who are on an approved Event Roster should travel to an Event.
- Continue to practice compartmentalization for those traveling to Events and those working in the shop/office.

EVENT TRAVEL

- Establish operational processes for all travel that promotes cleanliness and reduces interactions between members of the Event Roster as much as possible.
- Travel in a controlled environment as much as possible.
 - Minimize time in crowded settings, and utilize PPE, hand sanitizer, and disinfectant wipes.
 - All individuals are subject to medical screening and temperature when entering facilities.
- Avoid public transportation (e.g., buses, subways) or separate private (e.g., taxis, Uber, Lyft) transportation on the road to, or while in other cities.

AIR TRAVEL

- When traveling through public airports, avoid crowded areas to the extent possible.
- All travelers must wear a cloth mask at all times while utilizing commercial air travel or traversing public airports.

HOTEL ACCOMMODATIONS

- Utilize hotels that employ appropriate COVID-19 sanitation and cleaning procedures as recommended by the CDC and or OSHA.
- Do not congregate in public areas of the hotel.
- Encourage hotel to put all members of the group on the same floor of the hotel.
- Assign one person per room when possible.
- When possible book rooms on lower floors and discourage the use of elevators.
- As an added protective measure upon checking in to a hotel room, travelers should consider using disinfectant wipes to clean high-touch surfaces like doorknobs, counters and desktops.

CAMPING AT FACILITY

- Camping is permitted within the paddock
- Continue to practice compartmentalization and minimize contact with others

DINING

- While local restaurants may be open, participants are asked not to dine inside restaurants and get all meals to go. When possible, secure private dining space in hotel.

INTERNATIONAL RIDERS

International riders electing to come to the United States to compete in professional events must comply with all current (April 2, 2021) CDC Guidelines for international travel to the U.S. by Vaccinated and Unvaccinated individuals, including all mask, social distancing and sanitation recommendations.

- **CDC International Travel Recommendations for Fully Vaccinated People;** provide that before you arrive in the United States: "All air passengers coming to the United States, Including U.S. citizens and fully vaccinated people, are required to have a negative COVID-19 test result no more than 3 days before travel or documentation of recovery from COVID-19 in the past 3 months before they board a flight to the United States."
- **After travel:** CDC recommendations provide that all travelers "Get tested with a viral test 3-5 days after travel. Self-Monitor for COVID symptoms; isolate and get tested if you develop symptoms; and Follow all state and local recommendations or requirements after travel."
- **International Travel Recommendations for Unvaccinated People;** provide that before you embark on travel to the United States: "All air passengers coming to the United States, including US citizens and fully vaccinated people are required to have a negative COVID-19 viral test result no more than 3 days before travel or documentation of recovery from COVID-19 in the past 3 months before they board a flight to the United States."
- **After you travel:** CDC recommendations provide that all travelers "Get tested with a viral test 3-5 days after travel and stay home and self-quarantine for a full 7 days after travel. Even if you test negative, stay home and self-quarantine for the full 7 days. If your test is positive isolate yourself to protect others from getting infected. If you don't get tested, stay home and self-quarantine for 10 days after travel. Avoid being around people who are at increased risk for severe illness for 14 days, whether you get tested or not. Self-monitor for COVID-19 symptoms; isolate and get tested if you develop symptoms. Follow all state and local recommendations or requirements.'

EVENT ROSTER AND CREDENTIAL REQUIREMENTS

To verify the essential personnel needed by organizations participating at Events, AMA Pro Racing has implemented mandatory Event Rosters applicable to all participants and stakeholder personnel directly involved in Events. All participants must submit a completed HIPAA waiver and COVID-19 waiver to AMA Pro Racing prior to their names being added to an organizational roster.

EVENT ROSTER

Organizations participating in the event (race teams, race support vendors, industry partners, broadcasters) must submit a list of the essential personnel required to safely conduct the Event via an Event Roster. Roster limits will be announced on an event-by-event basis and will be strictly enforced by AMA Pro Racing. Event Rosters must be approved by AMA Pro Racing and all personnel will undergo medical screening before, during and after each Event.

In its sole discretion, AMA Pro Racing may determine someone to be non-essential and dismiss them from the event. Teams and participants may also be in violation of Section 1.7 of the American Flat Track Rulebook if they fail to comply with American Flat Track's Event Operations Protocol guidelines regarding essential personnel.

SUBMISSION AND APPROVAL PROCESS FOR PARTICIPATING ORGANIZATIONS

- All organizations participating in an Event will designate a roster contact to submit the list of essential personnel needed at the Event. The roster contact is responsible for making sure that all license fees have been paid, HIPAA and COVID-19 waivers have been completed before adding any name to an event roster.
- The organization roster must include First Name, Last Name, Title/Role, cell phone number, and email address for essential personnel.
- Organizations must pre-screen potential participants before adding their names to an event roster.
- Rosters must be submitted to AMA Pro Racing at least ten (10) days in advance of the first day listed on the event schedule distributed by AMA Pro Racing.
- Once submitted, organization rosters will be reviewed by AMA Pro Racing to ensure that all listed names have the appropriate license and that all license fees have been paid. Once verification is complete, AMA Pro Racing will send an approval email to the roster contact.
- If there is an issue with any aspect of the submitted organization roster, AMA Pro Racing will reach out to the organization's roster contact.
- Changes to an organization's roster inside the 10-day window will be allowed only in the case of extreme circumstances (i.e. replacing an injured / sick individual, replacing an individual due to family emergency) and must be approved by AMA Pro Racing.

Individuals not listed on an approved roster will not be granted access to the Event.

CREDENTIALS / LICENSES

As part of the continued effort to return to racing, **all membership and credential purchases will be required to be finalized prior to an Event. There will be no memberships or credentials sold at track.**

Team Owners and/or Riders must provide a list of names for anyone associated with their organization who will need a Single Event Credential to AMA Pro Racing at least ten (10) days in advance of the event day. AMA Pro Racing will not accept changes to the list after it has been submitted and approved. No refunds or transfers to a different event will be allowed.

To access the race paddock, all individuals will be required to have Annual Credential/Single Event Credential + Essential sticker.

TRACK EMPLOYEES, PROMOTER STAFF AND VENDORS

Track employees, Promoter staff and vendors working the event will need to be credentialed by the Promoter to participate.

- This includes anyone who works exclusively in the grandstands, parking areas or campgrounds. Examples include, but are not limited to: fan services workers, gate workers, ticket takers, track screeners, track security, etc.
- These employees and vendors will enter the venue through Track Screening Stations.
- Track employees and vendors will use their required track event credentials, and after screening be provided a sticker or wristband of-the-day to show they have successfully completed medical screening.
- All track employees, Promoter staff, and vendors will be required to wear a cloth face covering at all times.

A smaller subset of employees and vendors will need to be approved by AMA Pro Racing to be able to work inside the race paddock. They are required to be listed in advance on AMA Pro Racing Event Rosters.

- Those qualifying employees/vendors will be designated Essential for paddock or trackside work.
- All track employees and vendors with these designations will enter the venue through AMA Pro Racing Screening Stations.
- All track employees and vendors will enter using the required track or AMA Pro Racing credential and be provided a sticker of-the-day for their designated area to show they have successfully completed medical screening.

Individuals not listed on an approved roster will not be granted access to the Event.

CREDENTIAL PROCESS FOR TRACK, PROMOTER AND VENDORS

Promoter employees and vendors must be prepared to work the event by completing the following:

1. The employee/vendor must be listed on the track's list of participating workers. The list will be reviewed to ensure it contains the minimum number of personnel required to safely conduct the Event.
2. Complete Medical Screening prior to entry.

MEDICAL SCREENING

To reduce the risk of COVID-19 transmission, AMA Pro Racing has implemented medical-related guidelines and procedures applicable to all participants and stakeholder personnel directly involved in race events. These guidelines were developed in conjunction with infectious disease experts and consulting physicians currently assessing and treating COVID-19 patients and incorporate the latest CDC recommendations.

EVENT SCREENING FOR PARTICIPANTS

The minimum number of participants and stakeholder personnel required to safely conduct the event will be present at each race event. All personnel will undergo multiple iterations of medical screening before, during and after each event.

PRE-EVENT (before initiating travel to the event site)

All personnel must be identified by name to AMA Pro Racing at least ten (10) days in advance of the event day.

- Certain populations may be at increased personal risk regarding COVID-19. Please review the CDC definition of “People Who Are at Higher Risk of Severe Illness,” e.g. people over 65, and people with existing underlying medical conditions such as: chronic lung disease, moderate to severe asthma, severe heart disease, immunocompromised, chronic kidney disease, liver disease, severe obesity, diabetes, etc.
- AMA Pro Racing strongly recommends that participants who meet the CDC definition of “People Who are at Higher Risk of Severe Illness” not participate in the event. If you are unsure if you meet the CDC definitions, please consult with your physician.
- Participants concerned for their own health must consult with their physician prior to participation in the event.
- Pre-event screening will include a minimum of a completed questionnaire (Appendix C) concerning current health status, known COVID-19 exposures and temperature check.
- Within 24 hours of the opening of pre-entry screening, every participant listed on the organization’s approved roster will receive a text message or email that includes a link to the screening questionnaire. Participants must complete the questionnaire and click “submit” before arriving at the pre-entry screening location.
- Every potential participant must undergo pre-event screening by their employer before their name is added to an organizational roster.
- Participants should be symptom and fever free for a minimum of five (5) days before the event day without the use of Acetaminophen, Ibuprofen or similar drug used to prevent or reduce fever.
- Individuals with a confirmed COVID-19 infection, with known exposure to a confirmed COVID-19 case in the last 14 days, exhibiting physical symptoms of COVID-19 as identified in the screening questionnaire or experiencing a fever should not be added to an organization’s roster and must consult with their physician.
- Organizations must report to AMA Pro Racing if an individual is directed to self-isolate due to known COVID-19 exposure or if an individual receives a lab-confirmed diagnosis of COVID-19 (i.e. tests positive for active infection).
 - Per the current CDC guidance, an individual who has previously tested positive for COVID-19 must be symptom-free and have received two negative test results in a row, at least 24 hours apart.
- As testing becomes more widely available, all participants may be required to be tested for COVID-19 in advance of an event.

PRE-ENTRY – NON-EVENT DAYS *(for those requiring entry to the facility prior to the event)*

AMA Pro Racing will conduct pre-entry screening of personnel requiring access to the facility during the days leading into an AFT event. Examples may include broadcast personnel setting up cameras and broadcast compound architecture. AMA Pro Racing will coordinate directly with the facility during pre-event planning calls leading into events. During days of sanctioned on-track activity, AMA Pro Racing will be responsible for pre-entry screenings to the infield and immediate perimeter support personnel.

- AMA Pro Racing will establish a screening checkpoint outside the venue to facilitate entry of organizations requiring early access to the facility.
- The checkpoint will be located in the same area that will be used for the event pre-entry screening.

EVENT SCREENING FOR PARTICIPANTS (CONTINUED)

- Pre-entry medical screening will include a minimum of a temperature check and questionnaire regarding current health status and COVID-19 exposure. AMA Pro Racing will use the screening questionnaire provided in Appendix C
- Any individual indicating known exposure to a confirmed COVID-19 case in the last 14 days, exhibiting physical symptoms of COVID-19 as identified in the screening questionnaire or experiencing a fever above 100.0 F should not be allowed to access the facility and should be directed to consult with their personal physician.
- AMA Pro Racing will provide individuals who have completed pre-entry screening a recognizable indicator (wristband, sticker, etc.) to show they have been screened.
- Those organizations requiring access to the facility before the official event schedule is in effect must coordinate directly with AMA Pro Racing in advance of their arrival for available pre-entry screening times.
- PPE and social distancing requirements for individuals accessing a facility are in effect for event days and non-event days.

PRE-ENTRY – EVENT DAYS *(upon arrival at the track)*

AMA Pro Racing will establish approved access points for all competitors and support staff *(as pre-approved by AMA Pro Racing)*. These locations will be predetermined and access from any other location will be prohibited.

- AMA Pro Racing will have the approved event roster of all persons authorized to participate. Only those persons listed on the approved rosters will be admitted after completing all screening requirements established by AMA Pro Racing. AMA Pro Racing will verify each participant's identity using either the member's annual credential (*hard card*), driver's license or other state-issued photo identification. There will be no exceptions to this admissions policy. Any substitutions must be approved by AMA Pro Racing.
- Once the individual's identity and eligibility to participate has been established, they will be directed to a medical screening location. All persons entering the venue must be screened prior to admittance. **There will be no exceptions.**
- Pre-entry screening will include a questionnaire regarding current health status and potential exposure, as well as a temperature check.
- The screening will be recorded by medical screening staff and AMA Pro Racing and referenced as a baseline during later screenings, if an individual exhibits symptoms or is exposed to a confirmed infection.
- During pre-entry screening, a participant indicating known exposure to a confirmed COVID-19 case in the last 14 days, exhibiting physical symptoms of COVID-19 as identified in the screening questionnaire or experiencing a fever will be required to undergo secondary screening with on-site medical personnel.
- During secondary screening, the participant will either be cleared to participate or given further instructions at the discretion of the medical staff and AMA Pro Racing.
- Medical officials may recommend to AMA Pro Racing that a participant be denied access to the event location due to medical concerns.
- For areas of the venue outside AMA Pro Racing's control during an American Flat Track event, the Promoter will conduct pre-entry screening consistent with AMA Pro Racing's event standards for employees and vendors.

EVENT SCREENING FOR PARTICIPANTS *(CONTINUED)*

DURING THE EVENT (after accessing the facility through the completion of the race)

At designated times during the event, AMA Pro Racing may conduct follow-up temperature checks as part of the continual monitoring program.

- Temperature checks for race team personnel will be integrated into the pre-race inspection process to minimize disruption to their race preparation.
- Temperature checks for vendors and other stakeholder personnel will be conducted throughout the course of the event day.
- Participants accessing different areas of the facility (*moving between the broadcast compound and paddock or between the paddock and race control*) may be screened each time they access a new area.
- Individuals developing a fever or symptoms during the event day will be required to undergo an evaluation at a designated screening location. Medical personnel will assess the individual and determine appropriate action.

POST-EVENT (prior to departing the track after the event concludes)

Departure from the track will be conducted in a sequenced manner as outlined in the Paddock & Event Operations section.

- Prior to departing the event site, organizational leadership will confirm to AMA Pro Racing that no personnel are currently exhibiting COVID-19 symptoms.
- NOTE: Temperature checks may be deferred immediately after the event, as many participants who have been engaged in strenuous activity related to the race may exhibit temporarily elevated body temperature. Common post-race dehydration for competitors may also cause elevated temperatures, one of many factors to be considered by onsite medical personnel.
- Organizations are required to conduct a follow-up screening that includes a temperature check of all participants within 24 hours of the event completion and report completion of that screening to AMA Pro Racing. The roster contact for each organization will receive an email or text message the day after the race and must affirm that all participants on their roster did not develop any symptoms, including fever, and have not been diagnosed with or exposed to anyone with COVID-19. AMA Pro Racing may follow up with organizations reporting personnel with COVID-19 related concerns.

EVENT SCREENING FOR FANS

All fans visiting the Event will undergo medical screening prior to entering the venue. All fan initial screenings and entry procedures will include:

- Facial coverings are required. Masks will be provided at the screening location for those who need them.
- Questions asking if they have any of the CDC listed symptoms of COVID-19, exposure to and/or diagnosis of COVID-19.
- The fans' temperatures will be taken. CDC guidance will be followed on temperature measurements.
- Fans visiting as a unit, e.g. parents & children, spouses, etc. will be socially distanced from other fans throughout the screening process.
- Once passing the temperature screening, all individuals will be provided a wristband.
 - All individuals entering the facility will be required to wear a wristband upon passing temperature check
 - Wristband color will change daily
 - Wristbands will be given to individuals to secure
 - Wristbands should be visible at all times
- Fans with an elevated temperature will be taken to a secondary screening area to be assessed by a healthcare professional.
- At the secondary screening, fans with a temperature above the CDC guidance will be informed of the potential causes of a fever, given a recommendation to seek medical attention and asked not to return to the event.
- If a fan needs immediate medical attention, they will be transported to an emergency health care facility.
- The local healthcare partner of the facility will assist with secondary screenings and medical issues.

If a screened fan is asked to leave, and others in that party pass screening, they will be allowed to remain in the event, but asked to monitor themselves throughout the day.

CONTINGENCY PREPARATION

Specific requirements and procedures to address potential emerging infection concerns are outlined below.

- For an individual who has tested positive for COVID-19 to participate in an AFT event, he / she must receive medical clearance from their physician (submitted in writing from their physician to AMA Pro Racing) before being allowed to participate in future events. Per the current CDC guidance, an individual who has previously tested positive for COVID-19 must be symptom-free and have received two negative test results in a row, at least 24 hours apart.

PRE-EVENT SCREENING

If a participant displays symptoms or otherwise indicates high risk for possible infection, he/she will not be allowed to access the facility and participate in the event.

- AMA Pro Racing will conduct a secondary screening to evaluate the individual and determine the appropriate action in accordance with CDC guidelines for mass gatherings (i.e. return home, seek immediate medical care, etc.).
- Dedicated medical resources will be available at the screening location to evacuate suspected infected participants if medical authorities determine that is necessary.
- Contact tracing and enhanced evaluation of confirmed contacts will be performed by AMA Pro Racing.
- Organizations must prepare a support plan for any participant denied participation in the event due to medical concerns. That plan must include transportation arrangements to immediately remove the individual(s) from the event site per the medical official's guidance.

If a participant is denied access to an event due to COVID-19 related medical concerns, that individual must receive medical clearance from their physician (communicated in writing from the physician to AMA Pro Racing) before being allowed to participate in future events.

DURING THE EVENT

Organizational leaders are required to immediately report to AMA Pro Racing officials any participant developing symptoms during the event.

- Individuals developing a fever or symptoms during the event day will be required to undergo an evaluation at a designated screening location. Medical personnel will assess the individual and determine appropriate action/treatment.
- Dedicated medical resources will be available at the screening location to evacuate a suspected infected participant, if necessary.
- Contact tracing and enhanced evaluation of confirmed contacts will be performed by medical personnel.
- Medical officials may determine an individual must depart the event location immediately due to medical concerns.
- Disinfecting and decontamination materials will be pre-positioned to facilitate immediate cleaning of areas accessed by an individual suspected of COVID-19 infection.
- Organizations must prepare a support plan for any participant directed to depart the event location due to medical concerns; this plan must include transportation arrangements to immediately remove the individual(s) from the event site.

If an individual is removed from an event due to COVID-19 related medical concerns, that individual must receive medical clearance from their physician (communicated in writing from the physician to AMA Pro Racing) before being allowed to participate in future events.

RETURN TO COMPETITION PROTOCOLS

General guidelines for competitors and industry personnel to return to events after receiving a lab confirmed positive COVID-19 diagnosis or a known exposure to an infected individual follow:

CONFIRMED POSITIVE CASES

- Symptomatic and Asymptomatic Cases. Confirmed positive cases may return to racing activities after they have received two negative test results taken at least 24 hours apart.
 - If after 10 days, an individual is unable to produce two negative PCR tests, their return status may be medically reviewed by an AMA Pro Racing medical official.
 - New CDC guidance of July 22, 2020, recommends discontinuing PCR testing after the conclusion of the 10-day isolation period for the onset symptoms for the initial COVID-19 infection, if a person is fever-free for a minimum of 24 hours without the use of medication.
 - Please note: Based on advice from consulting physicians, AMA Pro Racing counts the 10 days from the date of the first positive PCR test for COVID-19.
 - In its guidance, CDC research indicates that in no instances yet discovered has there been a case where the virus is able to self-replicate beyond the 10th day following a positive test among individuals who are not immunosuppressed and did not have severe disease (e.g. requiring ICU stay or ventilation), so an individual in this situation poses no harm to others. In the event that the individual continues to be tested, it is very likely that the individual will continue to return positive results.
 - Based on this new CDC guidance, AMA Pro Racing medical officials would review the individual's situation and determine if they appropriately fit the CDC requirements before being allowed to return to racing without two negative PCR tests.
 - They must also have written clearance from their personal physician to resume all racing activity.

CONFIRMED EXPOSURE TO A POSITIVE COVID-19 PERSON

- Those exposed individuals are required to stand-down from competition and self-isolate. They may return to racing activities after they have received one negative test. AMA Pro Racing in its discretion may request a second test for clearance based on the nature of the exposure. Please note: a confirmed exposure is based on a totality of the circumstances as determined by AMA Pro Racing in consultation with their medical officials. Analysis will include: identifying people exposed over the last 10 days, accumulated time greater than 10 minutes, direct skin contact (shaking hands, etc.), lack of social distancing and the level of PPE use among the individuals involved in the contact.

FANS

For fans who become symptomatic during the event, they will be taken to a medical screening station for assessment.

- If a fan needs immediate medical attention, they will be transported to an emergency healthcare facility.
- If the fan is symptomatic and/or has a fever above the CDC guidance on temperature, they will be informed of the potential causes of a fever, given a recommendation to seek medical attention and asked not to return to the event.

PADDOCK & COMPETITION OPERATIONS

EVENT PROTOCOLS

AMA Pro Racing will enact the following event protocols to provide the safest experience possible including, but not limited to:

- Providing a video briefing for all personnel and competitors prior to coming to the event.
- Properly displaying health messages and materials using guidance from credible public health sources such as CDC or local public health department to promote good personal health habits.
- Requiring everyone who may demonstrate symptoms of COVID-19 or other sickness to isolate themselves immediately and notify AMA Pro Racing staff.
- Barring handshakes, high-fives and elbow bumps.
- Providing COVID-19 prevention supplies to event staff and participants, including hand sanitizer that contains at least 70% alcohol, tissues, disposable facemasks, cleaners, and disinfectants.
- Promoting compartmentalization by creating functional groups with specific access privileges within the facility.
- Requiring functional groups to enter and exit the facility via different entry/exit points or staggering times.
- Properly sanitizing all common areas on a frequent basis.

COMPARTMENTALIZATION

AMA Pro Racing has defined a comprehensive assignment of every person who will be onsite to specific functional groups based on both work location and their specific duties.

All participants will operate in functional groups to the extent possible, keeping workspaces separated and limiting contact with other groups to the absolute minimum. Interaction between functional groups will be avoided.

The defined functional groups are:

- AMA Pro Racing Competition Staff
- Promoter and Event Operations Staff
- Competitors and Team Members
- TV Production Crew
- Fans

SOCIAL DISTANCING

At all times, every person present will be required to maintain a minimum of 6' of distance from any other person regardless of functional group assignments.

Individuals from different functional groups will be required to maintain a minimum of 10' of distance from individuals from other functional groups at all times.

No physical contact between any individuals will be allowed at any time with the exception of those within a functional group during competition as defined herein.

STAGGERED ENTRY TIMES

Entry Procedure:

A sequenced entry plan will prevent large gatherings of personnel in any one location. AMA Pro Racing will provide all participating organizations the event entry plan prior to the event, and strict adherence to the assigned times is critical for an orderly ingress to the facility.

- AMA Pro Racing will identify which personnel/suppliers can perform their duties the day(s) before, during the event and/or after the event.
- AMA Pro Racing will assign specific times for all participants to arrive for pre-entry screening outside of the facility.
- For each facility, the designated screening locations for each participant group will be provided in advance of the event.
- Upon arrival at the screening location, participants will follow the direction of Security personnel and posted informational signs and complete the pre-entry screening process.
- Once cleared to enter the facility, personnel will proceed to their respective area (*paddock, TV compound, race control, etc.*).
- All personnel will maintain appropriate social distancing (*6' separation between individuals*) while undergoing the screening process.

Exit Procedure:

- If a team does not complete the Event, that team may exit the paddock at their discretion, but must undergo post-event screening requirements, post-event vehicle and equipment disinfecting requirements and maintain proper social distancing during their preparation and departure.
- For teams that finish the race, they will be released for exit by AMA Pro Racing after completing post-event screening requirements, post-event vehicle and equipment disinfecting requirements and must maintain proper social distancing during their departure.

PADDOCK OPERATIONS

Team haulers will have a minimum of 6' of open space between them when parked in the paddock. This space must remain clear throughout the Event day – no equipment is permitted in the open space.

Hauler doors will remain open as much as possible to allow entry and exit without touching the door.

Designated restricted areas will be marked in the paddock, including directional paths for walking.

As soon as a team completes pre-entry screening and enters the paddock area, they will unload at the direction of AMA Pro Racing officials.

AMA Pro Racing will utilize all available space to park haulers in the paddock to provide maximum possible separation between teams. Paddock layout information for each facility will be provided in advance of the Event.

FOOD & SUPPLIES

- Each person should bring their own food. Coolers will be allowed to be brought into the track.
- Participants may leave the venue to get food or have food delivered, but the delivery must occur outside of the secure area.
- AMA Pro Racing is not allowing kitchens to operate: no grills, buffets, cooking, etc. It is necessary to have single-serve meals only, and no additional personnel at track.

CLEANING & DISINFECTING

AMA Pro Racing will take steps to routinely clean and disinfect surfaces and objects throughout the competition facility. Workspace should be separated – teams should not touch inspection tools unless directed otherwise by AMA Pro Racing officials. Each organization will be responsible for cleaning their area – upon arrival, during the day and before leaving the facility.

- **AMA Pro Racing**
 - Haulers (i.e. Series, Airfence, TV Production) – hard surfaces
 - Inspection Equipment (Scale, tools)
 - Radios
 - Headsets
- **Tracks**
 - Provide onsite cleaning and sanitization services
 - Pits/Paddock Area
 - Hand Washing and Hand Sanitizing Stations
 - Restrooms
 - Meeting Locations
 - Control Tower
 - Media Center
 - Elevators
 - Fan Areas including but not limited to concessions, restrooms, and high touch surfaces
- **Teams**
 - Hauler
 - Race Vehicle
 - Pit Equipment
 - Tools/Equipment
- **Suppliers**
 - Hauler
 - Equipment

CELEBRATION & VICTORY LANE

Social distancing requirements directly impact in-race celebrations, post-race celebrations and the Victory Lane procedure.

- Competitors will not engage in traditional celebratory behavior involving direct contact with another person (*handshakes, fist-bumps, high-fives, hugging, etc.*).
- The Victory Lane run of show will be significantly condensed. Officials will direct the minimum number of team members required to enter Victory Lane and push the motorcycle to the post-race inspection area.
 - After the winning rider completes the live TV interview near the podium, the rider will proceed to victory lane for photographs with the trophy (*rider only – no additional personnel in victory lane*).
 - After the victory lane run of show has been completed and the area cleared, AMA Pro officials will direct the minimum number of team members required to enter Victory Lane and push the motorcycle to the post-race inspection area.

VENUE OPERATIONS

NO FANS ALLOWED: PADDOCK & TV COMPOUND

At no time will fans be allowed inside the paddock or TV/broadcast compound. No track employee or vendor credentialed to work in the paddock or TV compound may bring a family member or a fan into the paddock or TV compound, based on the following considerations:

- It is important to compartmentalize fans from the local community and AMA Pro Racing participants who have traveled from outside the community.
- AMA Pro Racing utilizes the entire paddock to create socially distant operations.
- To preserve emergency operations for the race.
- To preserve operations for the league and broadcast partners for future events.

SIGNAGE

At every screening location and entry gate, there will be visible signage that reads:

In accordance with CDC guidelines we have enhanced sanitization procedures and implemented additional measures for distance spacing and screening. THEREFORE, WE ASK THAT ALL FANS AND TEAM MEMBERS COMPLY WITH THE FOLLOWING:

- Face covering required
- Temperature check required
- Wash your hands often with soap and water
- Keep 6 feet (2 meters) between your travel party and others

Please note that the CDC advises that **older adults and people of any age who have serious underlying medical conditions** might be at higher risk for severe illness from COVID-19. Fans should evaluate their risk in determining whether to attend. People who show no symptoms can spread COVID-19 if they are infected, **any interaction with the general public poses an elevated risk of being exposed to COVID-19**, and we cannot guarantee that you will not be exposed during your visit. **We appreciate your cooperation during these unprecedented times.** For fans who may need an accommodation in order to comply with any facility rules and/or protocols, please contact our Fan Services team for further information.

Other signage: Throughout the venue, signs will be posted on where to locate hand sanitizer, masks, hand washing stations, and other safety/prevention messages.

STAGGERED ENTRY TIMES

ENTRY PROCEDURE:

A sequenced entry plan will prevent large gatherings of fans, employees and vendors in any one location. The promoter of the Event will provide all individuals arriving at the event a specified time to arrive for screening, and strict adherence to the assigned times is critical for an orderly ingress to the facility.

- The promoter will identify which employees/vendors can perform their duties the day(s) before, during the event and/or after the event.
- The promoter may assign specific times for all employees and vendors to arrive for pre-entry screening outside of the facility. Order of priority on race day will be:
 - Promoter employees and contractors
 - Approved vendors
 - Sanitation teams
- The promoter will designate screening locations for each individual in advance of the event.
- Upon arrival at the screening location, participants will follow the direction of Security personnel and posted informational signs and complete the pre-entry screening process.
- Once cleared to enter the facility, personnel will proceed to their respective area.
- All personnel will maintain appropriate social distancing (6' separation between individuals) while undergoing the screening process.

EXIT PROCEDURE:

- Fans may exit the venue at their discretion during the race, but after the race, fans will be directed by promoter staff toward specific exits, at specific pacing to maintain social distancing.
- Promoter employees and vendors will be released for exit in a controlled, metered fashion by their immediate supervisor.

COMPARTMENTALIZATION

- All employees/vendors will operate in functional groups to the extent possible, keeping work areas separated and limiting contact with other groups to the absolute minimum. Interaction between functional groups will be avoided.
- Participants will confine their movement to their primary work area. For example, AMA Pro Racing staff and AFT competitors should not access the grandstand area at any time.

CLEANING & DISINFECTING

- Prior to fans, employees and vendors arriving onsite, the venue will be disinfected.
- Hand washing stations will be clearly identified throughout the venue, and hand sanitizing stations will be placed at multiple locations throughout the facility.
- The facility's sanitation team will be a designated cleaning-only crew that will disinfect assigned areas in the perimeter and grandstand areas of the venue.
- The purpose of the facility sanitation team is not only to work constantly and diligently to keep everyone safe, but to be a highly visible reassurance to all fans, employees and vendors that they are in an environment where every effort is being made for their protection.
- Areas of cleaning by the facility sanitation team and track personnel inside the paddock also include, but are not limited to:
 - Restrooms
 - Elevators
 - Ticketing areas
 - Meeting locations
 - Control Tower
 - Suites
 - Stands
 - Fire Trucks
 - Ambulances
 - Radios
 - Headsets
 - Fire suits
 - Equipment
- After fans, employees and vendors leave, the venue will be disinfected.

PPE DISPOSAL

- The facility will have designated disposal receptacles for used masks.
- Used masks found littering the venue will be collected by employees/vendors, who are wearing a mask and gloves (or using a waste collecting tool), and then disposed of in the receptacles identified for used PPE.
- Those bins will be routinely emptied before they are full.
- Trash bags will be double-bagged and sealed prior to pick-up by waste collectors.

SOCIAL DISTANCING INSIDE THE VENUE

- Only a limited number of fans will be allowed at the event
- To meet social distancing requirements (6' between individuals), locations including the grandstands may be used to take advantage of the available space that conforms to the CDC recommendations. Steps taken include, but are not

limited to:

- One-way designated travel lanes inside and outside the facility.
- Reduced capacity of seating with socially distant reserved seating.
- Limited retail with designated boxes for spacing and emphasis on mobile, cashless transactions.
- Social distancing in all restrooms:
 - Frequent cleaning and disinfecting.
 - Only allowing use of every other sink, stall and urinal.
 - Monitoring to ensure social distancing of fans while washing & drying hands, etc.

INCLEMENT WEATHER

- Promoter employees and vendors need to prepare contingency plans for inclement weather.
- In inclement weather, it is important that promoter staff ensures that fans are not crowding into areas to avoid rainfall, and if necessary, direct fans to other locations to avoid inclement weather.
- Available shelter areas will be identified at each facility, and fans may be allowed to return to their personal vehicles to shelter in the event of an extended weather-related delay.

FAN AWARENESS EDUCATION

The Event promoter will work in collaboration with local healthcare providers to create a public education program on the Coronavirus to increase fans' awareness of how to prevent the spread of the virus.

| <input type="checkbox"/> | Shortness of breath, difficulty breathing, wheezing |
| <input type="checkbox"/> | Headache |
| <input type="checkbox"/> | Muscle pain/body aches |
| <input type="checkbox"/> | Fatigue |

I certify that the information submitted in this screening tool is true and accurate to the best of my knowledge. **SECONDARY SCREEN** by medical personnel (required if temperature 100.0 °F or greater or if any positive answers to questions above) – secondary screening content will be at the medical providers discretion

APPENDIX D – PRE-SCREENING PROCESS AND PADDOCK LOAD-IN

All personnel entering the facility who require access to the paddock will undergo pre-entry screening prior to entering the secure area. Refer to the pre-entry screening schedule on the following pages for specific time assignments.

- The pre-entry screening questionnaire will be sent via ReadyOp text message to all participants on approved event rosters 24 hours before paddock load-in.
 - The ReadyOp text message will include a link that takes the user to the screening questionnaire online.
 - Completed pre-entry screening questionnaires must be submitted by 5 pm ET on the day the ReadyOp text message is received (*the day prior to race day*).
- AMA Pro Racing will review completed questionnaires before pre-entry screening begins on race day, identifying anyone on an approved event roster who must undergo secondary screening based on questionnaire responses
- Organizations will be assigned a time to arrive at the entrance to the paddock for medical screening
- Upon arrival at the facility, vehicles will proceed to the first checkpoint where credentials / hard cards are verified, and AMA Pro Racing Registration confirms that each individual is on an approved event roster
- After clearing the first checkpoint, vehicles will proceed to a marked screening lane where occupants will remain in their vehicle with credential or hard card ready and cloth mask on
- As mobile screeners assigned to each lane approach the vehicle, occupants will lower their window and hold up their credential / hard card
- The screener will capture a temperature using a handheld non-contact infrared thermometer and record that temperature in the medical screening system
 - If temperature is less than 100.0 F, that individual is provided an “ESSENTIAL” sticker
 - If temperature is greater than 100.0 F, for any occupant, that vehicle will be directed to proceed to the secondary screening area. The doctor on site will assess the individual (*and any additional occupants*). If the doctor in the secondary screening area determines an individual may not access the event, the entrant or rider and series director will be notified
- Once all occupants’ temperatures have been captured and stickers distributed, the vehicle will be directed to proceed to the paddock or P1 parking area.

Friday and Saturday

- Organizations will be assigned a time for medical screening at the registration booth outside of the secure area
- Competitors camping in the paddock must walk or drive out of the paddock prior to their medical screening time
- At the first checkpoint, credentials / hard cards are verified, and AMA Pro Racing Registration will provide a new “ESSENTIAL” sticker with a different color to identify individuals on approved event rosters for each day
- After clearing the first checkpoint, approved team personnel will proceed to the paddock entry gate with credential or hard card ready and cloth mask on
- Mobile screeners will scan each credential / hard card, capture a temperature using a handheld non-contact infrared thermometer and record the temperature in the medical screening system
 - If temperature is less than 100.0 F, the individual will be allowed into the paddock
 - If temperature is greater than 100.0 F, for any occupant, that individual will be directed to the secondary screening area. The medical expert on site will assess the individual (*and any additional occupants in the case of a vehicle*). If the medical expert in the secondary screening area determines an individual may not access the event, the entrant or rider and Chief Competition Officer will be notified
- Once temperatures have been captured and stickers distributed, the individual and/or vehicle will be directed to proceed to the paddock or P1 parking area.

APPENDIX E – SUPPLEMENTAL REGULATIONS

EVENT INFORMATION

Atlanta Motor Speedway and AFT Events will play host to Round 3 of the Progressive American Flat Track season featuring the AFT Mission SuperTwins, AFT Production Twins and AFT Singles classes.

- [Atlanta Super TT Test Day Schedule](#)
- [Atlanta Super TT Schedule](#)

EVENT OPERATIONS PROTOCOL

All participants must familiarize themselves and follow the guidelines contained in the Event Operating Protocol.

ENTRIES

All 2021 events are Pre-Entry only. Final entries are closed. Post entries are not permitted.

PRE-EVENT RACE TRANSPORTER STAGING

See Facility Map on page 38.

MEDICAL PRE-SCREENING

Medical pre-screening (temperature checks and symptom questionnaire) will be conducted as teams populate the transporter staging area and PRIOR to AFT Registration / Credential Issue. See Facility Maps on page 38.

LICENSES & CREDENTIALS – NEW CREDENTIALS WILL BE ISSUED

2021 Hardcards will be issued at AFT Registration located just prior to entering the Pit Area.

OVERNIGHT CAMPING IN THE PIT AREA IS ALLOWED*

Essential team personnel are permitted to camp in their respective vehicles within the segregated AFT pit area. No RV hook-ups are available in the pit area – be self-sufficient and plan accordingly. Each morning these crew members MUST report to registration and get the current essential crew medical screening sticker for their credential. Crew members without the correct daily medical screening sticker (different color for each day) will not be permitted in the pits. Arrive prepared to be self-contained.

RACE TEAM TRANSPORTER LOAD-IN

ONLY AFT APPROVED essential race team personnel and their vehicles will be permitted into the AFT Pit Area. Each team will be brought into the facility in a sequence determined by AFT.

- AFT SuperTwins Teams taking part in the Atlanta Super TT test day can take advantage of early load-in between 2:00 – 5:00 PM on Thursday, April 29. Contact AFT's David McGrath (386)214-8838.
- Teams taking part in the Atlanta STT Test Day will be loaded in starting at 9:00 AM Friday, April 30. Teams must follow load-in schedule and pit in their assigned area.
- Teams NOT taking part in the Test Day will have an opportunity to load-in between 3:00 PM – 6:00 PM Friday. Only truck parking will be permitted. No working on bikes, erecting of awnings or other activity is permitted.
- Pit gates will open on race day, Saturday May 1st at 12:00 PM. Teams must follow load-in schedule.
- Transporters with occupants who are not screened and confirmed as approved essential crew members will not be allowed into the facility.

TEAM SUPPORT AND PERSONAL VEHICLE PARKING (Including Rentals)

Team support vehicles (non-transporters), rental and personal vehicles must park in the designated P1 parking area located inside the paddock. See Facility Maps on page 38.

APPENDIX E – SUPPLEMENTAL REGULATIONS

PACKAGE SHIPPING & RECEIVING

Packages shipped to the track must be identified with a contact name and team name on the shipping label for correct sorting. Shipping address is: **Contact Name / Team Name / Atlanta Motor Speedway / 1500 Tara Place, Hampton GA 30228 / (770) 707-7904**

OPEN “CONTROL” RADIO FREQUENCY FOR TEAMS

The AMA Pro Race Control radio channel is 451.800 MHz (12.5 KHz channel bandwidth, CSQ Squelch, Receive only).

RACE FUEL

The official fuel of Progressive American Flat Track is VP C10 Unleaded. Fuel is available from VP South.

- [2021 AFT VP Racing Fuels Pre-Order Form](#)
- Fill, complete and email order to: vpssouth@vpracingfuels.com
- To update an order, contact VP South at **706-335-3355**

TIRE REGULATIONS

Competitors may only use the specific Dunlop tires listed below for the Atlanta Super TT.

Front tires eligible for all classes:

- Dunlop DT4 130/80-19 compound F3 and F5.

Rear tires eligible for all classes:

- Dunlop DT4 140/80-19 compound R3 and R5

The national distributor for Dunlop Flat Track Racing tires is TT MotoGear. Pre-purchase and ship from: dunlopracing.com. or contact Si Maroun at 770-834-4237 / ttmotoracetires.com. Dunlop tires will be available at the Atlanta Super TT Friday, April 30 (test day) thru mid-day Saturday, May 1.

APPENDIX E – SUPPLEMENTAL REGULATIONS

TRACKSIDE TIRE PURCHASE PROTOCOL

TT Moto Gear will have Dunlop DT4 tires available for purchase track side at all 2021 AFT rounds. The following protocol is setup in accordance with AFT rules and regulations which are designed to keep us all as safe as possible during the race season.

WWW.TTMOTOGEAR.COM
(678) 294 – 17863

The following process to purchase tires will be followed:

- Each race team please be prepared to designate a tire purchasing person with a face mask for tire purchases. This designated tire purchaser is the only person who should approach the TT Moto Gear tent. This person should be the same individual throughout the season if possible.
- The tire purchaser will be prepared with what tires are needed and payment.
 - One person per team will be designated as the tire purchasing person to handle the tire purchase.
 - This person, if possible, will be the same person the entire race season.
- Face masks will be required while in the tire tent.
- TT Moto Gear will assist one person at a time with their tire needs. Others waiting will need to space themselves out at least 6 feet apart.
 - First come, first served
 - TT Moto Gear will set up as early as possible in the day for tire purchases
 - Plan early
- Tires will be handled by TT Moto Gear
 - Purchased tires will be placed on the ground for the purchaser to take with them once they are paid for to eliminate close contact between individuals.
- Payment via CC or cash will be handled across a table and NO paper receipts will be issued, only electronic receipts.
- Please do not cross any roped off areas around the TT Moto Gear tent.
