The only tires eligible for use at Progressive American Flat Track events are:

Mission SuperTwins and Parts Unlimited AFT Singles

Front Tire: Short Track, TT, Half-Miles and Miles

- Dunlop DT4 130/80-19 compound F5 (p.n. 4524-8345)

Rear Tire: Short Track, TT and Half-Miles

- Dunlop DT4 140/80-19 compound R5 (p.n. 4524-8178)
- Dunlop DT4 140/80-19 compound R7 (p.n. 4524-8068)

Rear Tire: Miles

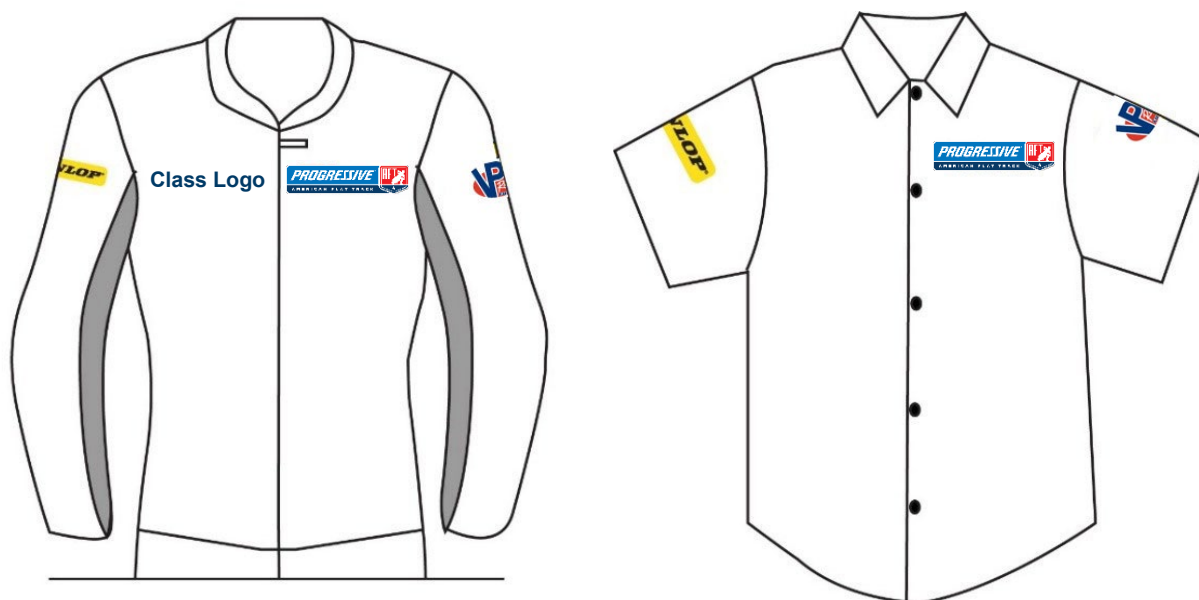

- Dunlop DT4 140/80-19 compound R7 (p.n. 4524-8068)
- Dunlop DT4 140/80-19 compound R9 (p.n. 4524-8390)

AMA Pro Racing reserves the right to mandate that all competitors use a specific tire at any time during any event.

Mission SuperTwins must run all tires tubeless except for TT events. At all other track configurations, nothing is permitted inside the tire.

Parts Unlimited Singles are strongly advised to run tubeless. Testing has shown use of even a standard tube increases the tire's carcass and tread temperature, degrading performance and endurance.

In all AFT classes, when a tube is used, only a single inner tube per tire is allowed. No other devices aside from standard style inner tubes may be run.
