

Introduction

This book contains rules and technical requirements governing all events that make up the American Hillclimb championship.

The Rulebook is designed to provide the information needed to prepare motorcycles for competition, an overview of rules that apply to the racing program along with a summary of offenses and penalties pertaining to rules violations.

The intent of a specific rule will override a competitor's interpretation of a rule. The intent of a rule will be determined by AMA Pro Racing. If any rule is unclear to an entrant or competitor, the entrant or competitor is advised to get written approval prior to any modifications.

AMA Pro Racing will answer any requests for rule clarifications or interpretations. Requests must be submitted in writing by riders and teams to AMA Pro Racing's technical staff. Any prior verbal approval from AMA Pro Racing without a written statement from the Technical Department regarding the interpretation of a rule or procedure will be deemed invalid.

While every effort has been made to write these rules in a clear and unambiguous fashion, it is impossible to anticipate every circumstance. It will be the Race Director's responsibility to make decisions regarding rules enforcement.

By participating in an American Hillclimb event, each licensed participant agrees to abide by AMA Pro Racing's rules and procedures. In addition, American Hillclimb licensed riders may be held responsible for the actions of their crew members.

Violation of American Hillclimb rules and procedures can lead to forfeiture of competition licenses or event credentials, fines, point deductions, lap deductions, finishing position penalties, time penalties, disqualification and other disciplinary actions as outlined herein.

For safety reasons, at any time during the calendar year AMA Pro Racing may require a licensed participant to undergo a physical or psychological examination by designated medical professionals at the Competitor's expense.

Technical Bulletins, Competitor Bulletins and/or Supplementary Regulations established by AMA Pro Racing for the purpose of implementing, interpreting and enforcing Rules will be deemed to be part of these Rules.

Once published, Bulletins shall take precedence over the applicable portion of these Rules.

Additionally, the Rules may be modified for an Event by the Race Director through instructions given at mandatory rider briefings.

All Rules, Bulletins and Supplementary Regulations are available in the Competitor Information section at www.amaproracing.com.

2.12 On-Hill Regulations

- a. No rider may, at any time, ride in such a manner as to endanger life or limb of other riders, officials or the public.
- b. No one, except riders officially entered, may ride or practice on any hill on the day of the meet. Unofficial trials on the day of the race meet are not permitted. Special exhibitions may be an exception, by a rider who holds an American Hillclimb License from any discipline. Special event exhibitions may be allowed for promotions but must be agreed upon by American Hillclimb, the Promoter, and the Race Manager.
- c. Unless directed to do so by the Referee or his designee, no one at any time will be permitted to ride a motorcycle in the wrong direction on the hill or pit road.
- d. Only in the designated area will any alteration, adjustment, repair or refueling be made to the motorcycle.
- e. Any form of outside assistance on the course is forbidden except when the assistance is given by the officials placed by the Race Manager or Referee for the purpose of control.

- f. A rider entering the pits must ride or push his motorcycle in the designated entrance and exit lanes, and, failing to do so, is subject to disqualification.
- g. All hill preparation must be completed 5:00 p.m. the day before the meet. A meeting of the American Hillclimb Referee, American Hillclimb Race Manager, hill advisory committee and the Promoter will be held the day before the event at a designated time to evaluate the hill condition to approve or request necessary changes. The Race Manager will communicate the changes that need to be made.
- h. The boundaries of the hill will be designated with flags. Minimum width of the hill is 25 feet or a minimum approved by Race Manager and/or American Hillclimb Official if facility does not meet minimum width. The use of flags will mark boundaries on the hill. If the rider goes around the outside of the flag, he/she will be called out of bounds. Contact may be made with the flag, but footage will be called if the flag must be reset.
- i. All riders must draw for riding positions. After the drawing, it will be posted in the pit area by rider number. Exchanging of riding positions is not permitted.
- j. If a rider, mechanic or team member trips the timing system while in the cleaning area, the associated rider will be disqualified from that round.
- k. A rider must be ready when his name is called. Riders will have a maximum of five minutes to appear in the staging area when their class is called to race. Riders are called to the starting box by the pit steward, in drawing number order. Rider will be given two minutes when the green flag is given at the top of the hill and the rider enters the starting box. If he is not ready to make his ride at that time, he must leave the starting box. The rider must notify the Referee if they are going on the fifteen minute clock. The fifteen minute clock will start from the time the Referee is notified, not the riders running position. That rider is then placed on a fifteen minute time limit. The pit steward will log the rider's name and time on the blackboard. The rider must be ready to re-enter the starting box within fifteen minutes or that ride will be counted as a failure. The rider with the last number drawn in his class has two minutes in the starting box, plus his fifteen minutes if there is a technical issue with the machine that requires being placed on the 15 minute clock. If a rider is on the 15 minute clock at the conclusion of the class, the next class will not start until the rider makes his/her attempt or the 15 minute clock expires.
- l. No one is permitted to work on the hill between the timing lights without the permission of the meet Referee for safety reasons, including the rider who drew the number one starting position. Any rider/mechanic working on the hill will be penalized by the Referee unless directed to work on the hill by the referee.
- m. After the bike is in the starting area there will be three persons designated with the rider to maintain the starting area and assist with the bike. When notified by the Referee, the rider's two minutes will start and his designees may be working on the starting line. After the starting line is prepped and the bike is placed on the line, only the necessary people will be permitted to remain in that area.
- n. Bikes are only permitted to be started in the designated starting area. Two people will be permitted within the designated area, one person using the starter and the other operating the kill switch. It is MANDATORY the person operating the starter wear safety eye protection. It is also MANDATORY for teams to place a safety shield on the starter mechanism to protect the operator. This shield should be constructed from metal or impact resistant, safety grade plastic. If a safety shield is not in place, the use of a chest protector by the person using the starter is acceptable.
- o. At all Hillclimb events other than the All-Star Challenge, the number of rounds per class will be determined by the number of entries registered. The total number of rounds per class will be two (2) or three (3) as determined below. If there are less than twenty-five (25) total entries registered, three climbs per class will be scheduled. If twenty-five (25) or more entries are registered, two climbs per class will be scheduled. A meeting of the Referee, Promoter and Race Manager will make this determination prior to the start of the meet. Each round will consist of an Xtreme, Unlimited, Expert Singles and Pro Sport class.
- p. In case of a tie, second best times will be used to break the tie. If this does not break the tie, third best times will be used. If a third time is not available or does not break the tie, a run-off between the tied riders will be run until the tie is broken. Runoffs will only be run at the conclusion of all rounds.
- q. The rider holding the fastest time in any event need not take his next trial until his time has been bettered. The rider may take his next trial at his option, in draw order, during that class ride or at the conclusion of that class. In case of a tie for fastest time between rounds the tiebreaker rule (See above), will be applied, other than the runoff requirement. If this does not break the tie, then both riders must make their next round run in draw order.
- r. A rider must be on his machine or in control of it when the bike breaks the top timing light. A rider is considered in control of his machine if he has one or both hands on the handlebars. The Referee will appoint a knowledgeable person to be the assistant referee. An American Hillclimb Official will be placed at the finish line (timer) with a radio to the Referee to determine whether the rider was in control and the bike broke the timing light. The Referee will appoint a knowledgeable person to be the assistant referee if an official is not available. This person will be introduced at the riders' meeting. Video footage (by placement of device such as GoPro Camera at the top timing light) and or still photography by an approved photographer on the hill (from a vantage point to offer a definitive view) may be used to assist the Referee in the final decision.
- s. A ride will end at the point in which the rider goes around the flag marking the course.
- t. Where a rider loses control of his machine will be the spot marked as the distance reached.

2.13 Flags

- a. **If radio communication between the starter and the top of the hill is unavailable**, a flagman will be stationed at the top of the hill with green and red flags.
- b. Green Flag: Indicates start of race or clear hill conditions.
- c. Red Flag: Indicates race has been stopped and there is an emergency.

2.14 Timers

- a. An electric eye must be used at the bottom and top of the hill. A backup system (dual system) is recommended. In the case of a malfunction, any other type of timing device can only be used with the approval of the Referee and/or Race Manager.
- b. American Hillclimb will furnish timing equipment.
- c. Riders must be informed if the electronic timer is not available or is not working. Hand stopwatches will then be used.
- d. If the timer should fail to work and the rider completes the hill, he may wait until all riders have taken their ride in this round and either be given credit for full footage or make another attempt.
- e. Should the motorcycle not trip the timer, the rider is permitted another. A rider must break the lower timing light to make a valid attempt at a run with rider and running machine in order to qualify for any points or purse.
- f. If the timer has been tripped, it will be considered a ride.

2.15 Entries

- a. Any and all forms of Race Entry Registration, including Online, Early Registration, for Participants may only be conducted by a Clerk who is credentialed as an American Hillclimb Official for Hillclimb.
- b. Each class entry is considered a separate entry.
- c. All riders must show their competition credential at the entrance to the back gate and pay a ~~\$75.00~~ **\$100.00** entry fee per class. The rider will be held responsible for the action of those in possession of their team credentials. Crew members are required to apply for their Crew credential. Crew must show their credential at the entrance to the back gate. Crew must always wear their credential.

2.16 Official Race Results

- a. No official announcement of race results will be given until all scoring materials are examined and approved by the Head Scorer. Provisional results will then be posted and will become official if no recheck is requested by a rider within 30 minutes after the posting of those results.
- b. If any rechecks are filed within the time limit, a new posting time limit of 30 minutes will be required if changes are made to the previously posted results.

- c. The issuing of official results does not exempt riders who competed in the event from penalties for rules violations determined by American Hillclimb investigations following the protest period.
- d. At all Hillclimb events, the race report must be mailed within three days after the meet. The points for that meet will be awarded after the report has been checked by the American Hillclimb

A1 General Information

- A1.1 Through the establishment and enforcement of various rules and procedures, AMA Pro Racing strives to regulate the sport of professional motorcycle racing in the fairest possible manner. By participating in an AMA Pro Racing event, each entrant, rider and participant agrees to abide by AMA Pro Racing’s rules and procedures. In addition, AMA Pro Racing licensed entrants and riders may be held responsible for the actions of their crew members. As part of entering an AMA Pro Racing event, an entrant assures AMA Pro Racing that their crewmembers are AMA members in good standing. All parties involved in AMA Pro Racing events are expected to conduct themselves in a professional manner, respecting at all times the rights of others. Participation in AMA Pro Racing sanctioned activities is a privilege afforded to entrants, riders and event credential holders. All such participants understand that violation of AMA Pro Racing rules and procedures can lead to forfeiture of their entrant or competition licenses or event credentials, fines, points deductions, lap deductions, finishing position deductions, time penalties, disqualification and other disciplinary actions as outlined herein.
- A1.2 Rules directed or related to safety are promulgated to make all persons concerned with safety. AMA Pro Racing neither warrants safety if the rules are followed nor compliance with or enforcement of the rules. Each participant in competition has the responsibility to assess the safety aspects of facilities and conditions and must assume the risk of competition.
- A1.3 Through its protest and appeal procedures, AMA Pro Racing provides a system of administrative review in the event of disputes which are eligible for such review. The goal of AMA Pro Racing’s protest and appeal procedures is to assure fair and consistent enforcement of rules and objective review of protests and appeals lodged by or against participants.
- A1.4 Any participant who is fined under these rules will be deemed suspended from all AMA Pro Racing sanctioned activities until the fine has been paid. The fined party is entitled to a receipt upon payment. All fines and other disciplinary actions levied by AMA Pro Racing must be explained in writing. A copy must be given or sent to the disciplined party.
- A1.5 Any participant under suspension, or otherwise disciplined under these rules of competition, may be reinstated by action of, and in the sole discretion of AMA Pro Racing.

A1.6 AMA Pro Racing reserves the right to carry over any and all penalties, fines and suspensions incurred by a rider at any AMA amateur and or premier sanctioned event. Unacceptable behavior by a rider on the race track or in the paddock at any AMA sanctioned event is detrimental to the sport as a whole and will be treated as such by AMA Pro Racing.

A2 General Offenses and Penalties

A2.1 This section outlines actions which are deemed to be detrimental to the sport of motorcycle racing and which may result in a range of disciplinary actions. Unless otherwise specifically provided for in these rules, AMA Pro Racing may disqualify any entrant, rider or participant or motorcycle from the balance of a race event for violation of these rules, insubordination or other actions deemed in the sole discretion of AMA Pro Racing to be detrimental to the race event and the sport. AMA Pro Racing is also empowered to, in addition to or in lieu of a suspension from competition, suspend an entrant's or rider's eligibility to earn points for one or more events including, but not limited to, the event in which the rules violation took place. The beginning and ending dates of any such suspension will be as determined by AMA Pro Racing.

A3 Equipment Offenses and Penalties

This section deals with violations of equipment regulations. Regardless of a motorcycle passing prior inspections, compliance with all applicable equipment rules must be made at the post race inspection. Any motorcycle found to be in violation of equipment rules may be assumed to have been in violation for the entire race event. In passing a motorcycle through technical inspection, AMA Pro Racing does not warrant that motorcycle's adherence with all rules. Each entrant and rider in AMA Pro Racing classes assumes full responsibility for any violation of equipment rules involving their motorcycle.

A3.1 Equipment offenses are divided into two categories:

- a. Category 1 - An equipment violation that could potentially or effectively enhance the performance of a motorcycle used in competition.
- b. Category 2 - All other equipment violations.

A3.2 Impounding of Motorcycles and Components

A4 Protests

A4.1 Unless specifically excluded herein, entrants and riders may lodge protests on any matter regarding an event in which they were a participant. Such matters may include, but are not limited to, the conformity of a machine with these rules or the eligibility of a rider.

A4.2 There are two types of protests: technical and administrative. Technical protests relate to the legality of motorcycles and components used in competition. All other protests will be defined as administrative.

A4.3 Every protest must be made separately and in writing. Each protest must specify the violation of AMA Pro Racing rules or procedures which is alleged, and must be accompanied by a filing fee. For a technical protest the filing fee is \$1,000, for all other protests the filing fee is \$500. AMA Pro Racing will not accept verbal protests or protests which are not accompanied by the required fee.

A4.4 The posting of provisional results starts the 30-minute protest period.

A4.5 Final determination of the timeliness of a protest will rest with AMA Pro Racing and such decision will be final to all concerned.

A4.6 Protests will not be accepted which concern the decision of AMA Pro Racing's timing and scoring.

A4.7 Protests will not be accepted on decisions of AMA Pro Racing officials with respect to the interpretation of AMA Pro Racing rules as they pertain to race procedures or AMA Pro Racing office policies. Such decisions include, but are not limited to, establishment of grids and assignment of starting positions; the start of the race; jump starts; the control of the motorcycles; the decision to delay, stop or shorten a race; establishment of restart grids; the display of flags; assessment of finishing position, lap or time penalties; and disqualifications, whether from a single event or the entire race event.

A4.8 AMA Pro Racing will render decisions on all protests as soon as possible. If it is not possible to render an immediate decision, AMA Pro Racing may permit a protested rider to compete under protest. In such cases, payment will be withheld of all affected points and monies pending a decision on the protest.

A4.9 Once made, a protest cannot be withdrawn without the permission of AMA Pro Racing.

A4.10 Any legitimate expense that AMA Pro Racing may incur as the result of a protest must be paid by the protesting party, and AMA Pro Racing may require in advance a deposit from the protesting party sufficient to cover such expenses. If the protest is upheld, however, such costs must be reimbursed by the protested party.

A4.11 If AMA Pro Racing decides a protest in the favor of the protesting party, the protest fee will be refunded to the protesting party. A written report detailing the protest action will be forwarded by AMA Pro Racing.

A4.12 If AMA Pro Racing decides a protest in favor of the protested party, they will keep the protest fee and produce a written report. However, in the case of a technical protest which involves the teardown or measurement of an engine, the protested party will be entitled to the protest fee.

A5 Appeals

A5.1 Appeals may be lodged by entrants and riders to initiate AMA Pro Racing's administrative review process.

- a. An appeal may be lodged by a party which loses a protest and desires further review of the issue. In general, appeals cannot be accepted related to matters for which no remedy is available. (For instance, no appeal will be heard if the only means of remedy would be to re-run the event.)

A5.2 An appeal must be in writing, signed by the appealing entrant or rider, and must state specifically the elements of the protest, fine, suspension, or technical disqualification being appealed and the grounds for the appeal. The appeal may either be filed at the event or submitted to:

AMA Pro Racing Technical Department
AMA Pro Racing
525 Fentress Blvd. Suite B
Daytona Beach, FL 32114
Phone: (386) 492-1014
Fax: (386) 274-2335

The appeal must be received at AMA Pro Racing's Florida headquarters by 5:00 p.m. ET on the second business day after notification to the participant of the ruling or incident in question.

A5.3 A filing fee of \$1,000.00 must accompany the appeal. The filing fee will be refunded only if the appealing party prevails. Laboratory fees must be paid by appealing party and are non-refundable.

A5.4 The appealing party will be responsible for producing the following within five days of notification of the decision/incident being appealed:

- a. Copies of all written statements which will be offered as evidence at an appeal hearing.
- b. A complete list of witnesses to appear at the appeal hearing. Attorneys are not permitted at appeal hearings.

A5.5 AMA Pro Racing will review all materials submitted as required and will, in the interest of deterring unsubstantiated appeals, determine whether, in its sole and absolute discretion, the circumstances of the appeal warrant the convening of an appeal board.

A5.6 Following the submission of an appeal, AMA Pro Racing shall take one of three initial actions:

- a. Rule in favor of the appealing party, take appropriate remedial action and refund the filing fee.
- b. Convene an appeal board.
- c. Determine the appeal to be without merit. If the appeal is determined to be without merit, an amount in addition to the \$1,000.00 filing fee may be assessed against the appealing party. This amount will be equal to the actual costs incurred by AMA Pro Racing in making the initial determination and shall be considered a fine under these rules such that all applicable rules regarding fines will apply.

A5.7 If the matter being appealed is a dispute between two participants, AMA Pro Racing may mediate the matter in an effort to reach an agreement between the parties; but failing to do so, may convene an appeal board to hear the matter. For these purposes, a dispute between two entrants or riders is deemed to exist only if one party or the other has filed a formal protest against the other.

A5.8 Each appeal board will consist of three persons with no material interest in the matter at hand. Selection of the appeal board members is at the sole discretion of AMA Pro Racing, which will make every effort to assure a fair and impartial hearing.

A5.9 No evidence or other information will be given to the appeal board members in advance of the hearing, and AMA Pro Racing will use its best efforts to keep the composition of the appeal board confidential until the hearing. Any effort by any party to unfairly influence a member of an appeal board may result in disciplinary action. For these purposes any effort to discuss the matter under appeal prior to the hearing will be considered an attempt at influencing the appeal board member.

A5.10 The time and place of the appeal hearing will be determined by AMA Pro Racing. The appeal hearing will be convened as soon as practical and barring delays will be held no more than 30 days after the ruling/incident being appealed.

A5.11 AMA Pro Racing will designate an individual who shall serve as non-voting chairman of the appeal hearing. No other member of the appeal board will be an employee of AMA Pro Racing.

A5.12 AMA Pro Racing will confirm the time and place of the hearing in writing to the appealing rider, such notice to be made at least 10 days before the hearing unless the appealing party agrees to shorter notice. Formal written notice will be deemed to have been given when mailed or faxed to the appealing party at the most recent address he or she has provided to AMA Pro Racing. AMA Pro Racing will make every effort to verbally confirm the time and place of the hearing with the appealing party.

A5.13 Appearance at the hearing will be the responsibility of the involved parties. If the appealing party fails to appear, the appeal board may go forward with the hearing. In the event of a documented emergency on the part of the appealing rider, the hearing may be delayed.

A5.14 The appeal hearing will be informal and rules of evidence will not apply. The following guidelines for conduct will, however, be enforced by the chairman:

- a. The chairman and members of the appeal board may at any time ask any questions they deem appropriate.
- b. All parties involved in the appeal will be expected to provide full cooperation to the members of the appeal board in establishing pertinent facts and gathering information.
- c. All comments from parties involved in a dispute will be to the appeal board members. No debate between the disputing parties will be allowed.

- d. The appeal hearing will be a closed meeting with attendance restricted to the following: The chairman, the members of the appeal board, the party or parties directly involved in the appeal and their witnesses. Subject to the approval of the chairman, non-participating observers may also be admitted.
 - e. Any party to a matter under appeal may request a written statement from AMA Pro Racing or any AMA Pro Racing competition entrant or rider license holder believed to have relevant information. Refusal by any AMA Pro Racing official or license holder to provide a statement or testimony when requested may result in disciplinary action as provided for in these rules.
 - f. Information presented to the appeal board must relate directly to the matter under appeal. Discussion of past appeals or situations involving other participants will not be considered. The chairman may ask the appeal board to rule on the validity of information or testimony being presented.
 - g. Any party who fails to comply with these guidelines for conduct will be asked to leave the meeting and may be subject to disciplinary action.
- A5.15 The following order of business will be followed at appeal hearings:
- a. Introductions and summary of matter under appeal.
 - b. Presentation of written and oral testimony, with the party in a defense posture presenting its evidence last.
 - c. Questions from the chairman and appeal board members.
 - d. Closing statements, again with the party in a defensive posture going last.
 - e. After all evidence has been presented, the appeal board will go into executive session to consider its decision. The chairman may, upon the request of at least two members of the appeal board, be present as a consultant to this process. It is the responsibility of the appeal board to rule on the matter at hand within the context of existing AMA Pro Racing rules and regulations. Appeal boards are encouraged to make recommendations regarding such rules and regulations but have no power whatsoever to waive or modify rules that were in place at the time of the matter under appeal.
 - f. Decisions of the appeal board will be by simple majority.
 - g. Upon reaching a decision, the appeal board will inform the chairman of same and the chairman will assist in drafting the board's formal statement.
 - h. Upon completion of the appeal board's formal statement, the appeal hearing will be reconvened and the chairman will read the statement.
 - i. The hearing will be adjourned with the decision of the appeal board final to all parties.

- A5.16 If the appeal board members do not feel they can make a decision based on the evidence made available to them at the appeal hearing, they will have up to seven days to conduct further investigations and reach their decision. If no formal decision has been reached within seven days of the appeal hearing, the appeal board will be dismissed. At that point the AMA Pro Racing must either mediate a resolution to the appeal or convene a new appeal board.
- A5.17 AMA Pro Racing will reimburse actual expenses incurred by members of the appeal board. Parties and witnesses to the appeal will not be entitled to any such reimbursement.
- A5.18 If an appeal is upheld, the appealing party will be refunded the filing fee. If an appeal is denied, the filing fee will be retained by AMA Pro Racing to defray costs of the hearing.
- A5.19 While in the process of appealing a fine or suspension, a participant may continue to participate in professional events. However, this privilege may be denied, at the sole discretion of AMA Pro Racing, if the suspension is related to an offense under AMA Pro Racing Substance Abuse Policy or for operating a motorcycle or any motor vehicle in such a manner as to endanger the life or limb of other riders, officials or the public.
- A5.20 The participants to the appeal agree that the determination of AMA Pro Racing in the event the appeal is determined to be without merit or the appeal board is final, binding and shall not be appealable to AMA Pro Racing, any court, or any other tribunal. The participants to any protest or appeal further agree that the protest and appeal procedures provided for in the AMA Pro Racing Rulebook are the exclusive remedy for the resolution of any disputes and renounce the right to, and shall not pursue, recourse to any arbitrator, court or other tribunal not provided for in the AMA Pro Racing Rulebook. Any attempt to do so shall result in disciplinary action being imposed by AMA Pro Racing in its sole and absolute discretion. Said disciplinary action may include the permanent suspension of the entrant, rider, crewmember, other individual or motorcycle from participation in AMA Pro Racing sanctioned competition or any lesser disciplinary action deemed warranted by AMA Pro Racing.
- A5.21 The participants in the appeal agree that the publication of protests, appeals and the interim and final results of said protests and appeals may at the sole discretion of AMA Pro Racing be released to the public in any media deemed appropriate by AMA Pro Racing. The participants agree that they shall not bring a cause of action against AMA Pro Racing, or its respective directors, trustees, officers, employees, agents and assigns as a result of such publication.

Appendix B

Professional Racing Substance Abuse Policy Preamble

The safety and integrity of professional motorcycle racing are of paramount concern to AMA Pro Racing. Substance abuse is fundamentally inconsistent with safety and with the integrity of motorcycle sport. Accordingly, AMA Pro Racing has established this Substance Abuse Policy, which is a supplement to AMA Pro Racing's Rules for Competition and which is binding upon all licensed participants in the same manner and to the same extent as AMA Pro Racing Rules for Competition. All participants applying for any AMA Pro Racing membership must agree to the following:

"I recognize the importance of maintaining the safety and integrity of professional motorcycle racing. Accordingly, I agree to strictly comply with AMA Pro Racing's Rules for Professional Competition and AMA Pro Racing's Substance Abuse Policy. I understand that my agreement to comply with the Substance Abuse Policy is an essential precondition to the issuance of a professional license and that I must abide by the Substance Abuse Policy and submit to such testing procedures as may be conducted from time to time at the sole discretion of AMA Pro Racing as a condition of continued licensure. I further understand that any violation of the Substance Abuse Policy, or failure or refusal to submit to testing and honestly participate in any testing procedure, will result in immediate disciplinary action which may include the suspension of my AMA Pro Racing competition license or membership and the denial of my privilege to participate in any AMA Pro Racing sanctioned events."

Credentialed participants are provided a copy of the AMA Pro Racing Substance Abuse Policy with the issuance of their participant credential. It reads as follows:

AMA PRO RACING SUBSTANCE ABUSE POLICY

Through a comprehensive testing program, AMA Pro Racing's Substance Abuse Policy rules are designed to keep Events safe for everyone and provide a level playing field. Strong testing programs save lives, prevent injury, gives AMA Pro Racing Participants additional reasons to say no to illegal drugs and help identify people with substance abuse issues and facilitate their treatment. To those ends, AMA Pro Racing prohibits the misuse of alcohol, prescription drugs, and any other substance used in a manner that affects safety or impacts the integrity of the competition, including –but not limited to-- illegal or performance enhancing substances. All AMA Pro Racing Participants are responsible for whatever goes into their body.

B5.11 VOLUNTARY DISCLOSURE

AMA Pro Racing encourages voluntary disclosure of substance abuse and supports voluntary rehabilitation efforts by persons subject to the terms of this Policy. Consequently, AMA Pro Racing is agreeable to accommodating such persons during their recovery and abstinence so long as the safety and integrity of AMA Pro Racing's professional racing program is not jeopardized.

- a. AMA Pro Racing's primary objective with regard to voluntary disclosure is to prevent participation of individuals who are in violation of this Policy until such time as the violation is no longer a threat to the safety or integrity of the racing program. In principal, persons who voluntarily disclose violation of this Policy, and who voluntarily withdraw from participation until their eligibility status is resolved, will receive more favorable consideration than those whose violations are discovered through testing and who have continued to knowingly participate in AMA Pro-Racing's program while in violation of this Policy.
- b. Participants are encouraged to contact the Program Administrator and/or Race Director to voluntarily dis-close violations of the Substance Abuse Policy prior to being selected for a drug test. Persons who do not will be subject to whatever actions and controls AMA Pro Racing deems necessary to protect the safety and integrity of its racing program, and such steps may include withholding of competition privileges.
- c. Individuals who voluntarily disclose their violation(s) of the Substance Abuse Policy, and who cooperate with the Program Administrator in setting a plan of action for reinstatement, shall not, under normal circumstances, be charged with violation of this Policy.
- d. Individuals who voluntarily disclose their violation(s) of the Substance Abuse Policy will be subject to a preliminary test to be conducted in a timely manner at the direction of AMA Pro Racing and any subsequent testing as determined by the Program Administrator. Costs of such test shall be borne by the individual. Under no circumstances will the individual be permitted to participate in AMA Pro Racing-sanctioned activities until they have a negative test result on a sample specifically identified as a "Consideration for Return to Competition" passed a substance abuse test.
- i. If the results of the preliminary test reveal that the participation of the individual may jeopardize the safety or integrity of the AMA Pro Racing program, as determined in the sole discretion of AMA Pro Racing, then the further participation of the individual will be withheld until such time as there is evidence, acceptable to AMA Pro Racing, that the individual's participation will no longer jeopardize the safety and integrity of the program.
- e. Individuals who voluntarily disclose violation(s) of the Substance Abuse Policy will be required, prior to continued participation, to enter into a Voluntary Disclosure Agreement with AMA Pro Racing stipulating the conditions of their probation.

- f. Individuals who have no previous offenses of this Policy may voluntarily disclose violation(s) even at the time of selection for a random test under the provisions of Section B.11 of this Policy or at the time of notification of a test under the reasonable suspicion provisions of Section B.5.1. However, such individuals must immediately cease their participation in the day's activities and refrain from any further participation in AMA Pro Racing-sanctioned activities until their eligibility status has been resolved.
- g. Individuals who have one or more previous violations of this Policy are offered no specific protections under this section of the Policy. However, voluntary disclosure of repeat violation(s), and voluntary withdrawal from participation, will be viewed as mitigating factors by AMA Pro Racing in determining any penalties which might be invoked.
- h. Any violation of the Substance Abuse Policy discovered while an individual is on probation under these provisions for voluntary disclosure shall be treated as an offense under the appropriate item of this Policy

B5.12 APPLICABILITY OF THE AMA PRO RACING RULES

- a. This Policy, as it may be amended from time to time, is a supplement to the provisions of the AMA PRO RACING Rules for Competition and will be interpreted, enforced and applied by AMA PRO RACING. This Policy is binding upon all AMA PRO RACING Participants in the same manner and to the same extent as the AMA PRO RACING Rules for Competition.

Appendix C

Fuel Test Procedures

- C1 AMA Pro Racing has sole authority to direct the administration of fuel tests, which may be carried out at any time during the course of an event.
- C2 The criteria for selection of the machines from which samples are to be taken will be at the sole discretion of AMA Pro Racing. The motorcycles selected for fuel sampling and testing will be placed in the impound area.
- C3 Containers for holding samples:
- Must be clean and constructed of robust, fuel non-reactive, impermeable material.
 - Must be sealable.
 - Must have provision for identification.
- C4 The extraction of fuel from the machines must be directly from the fuel tank, and shall be subjected to initial fuel testing.
- C5 Should a fuel sample fail initial fuel testing, three (3) test samples will be collected from each selected machine. The containers must be immediately sealed and identified by reference to the machine from which the sample was taken.
- C6 This information must be entered on the AMA Pro Racing Fuel Sample Certificate, which must certify the date, place and time of taking the sample, the identity of the machine from which the sample was taken, and the identity of its rider.
- C7 The samples (A, B and C) must remain in the control of AMA Pro Racing. The rider or a representative of the entrant/rider/team must sign the fuel sample certificate acknowledging that a sample was taken, and the entrant or rider must receive a copy of the certificate.
- Sample A and its certificate will be sent by express service to the official testing laboratory as determined by AMA Pro Racing, where the sample will be tested for compliance to the fuel specifications in accordance with standard scientific procedures.
 - Sample B and its certificate will be safeguarded at the AMA Pro Racing office and will be sent to the laboratory for testing if Sample A is found to be in non-compliance to the fuel specifications.
 - The results obtained from such testing must be attached to the laboratory's copy of the Fuel Sample Certificate and delivered to AMA Pro Racing as soon as practicable after the results have been obtained.
 - Sample C will be safeguarded at the AMA Pro Racing office for future testing if necessary.
 - Upon receiving the report from the laboratory that a fuel sample or samples are not in compliance with the rules, AMA Pro Racing will inform the entrant or rider and assess a penalty.
- The competitor may only request a re-test to verify the results. The re-testing will be at the competitor's expense.
 - If after the second test the fuel is found still out of compliance the competitor may not appeal the results or the penalty assessed by AMA Pro Racing.
 - The independent testing laboratory, in issuing the results of the test, must also verify that the samples were received in good condition and with the seal intact.
 - One crew member from each team may supervise the testing of their team's fuel.

Sound Test Procedures

Section	Sound Test Procedures	Page
D1	Sound Test Equipment	90
D2	Test Site	90
D3	Guidelines for Measuring Sound	91
D4	Sound Testing Corrections	91

D1 Sound Test Equipment

- D1.1 The following instrumentation shall be used: a sound-level meter meeting the Type 1, Type S1A, Type 2, or Type S2A requirements of ANSI S1.4-198 or the international standard IEC 651, Type 1 or Type 2.
- D1.2 The sound-level meter must include a compatible calibrator, which must be used immediately before the testing session begins and always just prior to a re-test if a disciplinary sanction may be imposed.
- D1.3 For convenience, a 20-inch string may be attached to the front of the sound-level meter for the stationary sound test.
- D1.4 It is recommended that the sound meter be attached to a tripod and then placed into position for the test.
- D1.5 Allow the sound meter to come to the same temperature as the surroundings.
- D1.6 Set the sound meter to slow dynamic response and A-weighting.
- D1.7 Always round down the meter reading, that is: 100.9 dB/A = 100 dB/A.
- D1.8 An electric tachometer or vibrating reed tachometer shall be used to determine RPM.

D2 Test Site

- D2.1 No one should be within 10 feet (3 meters) of the machine other than the rider, the sound meter operator, an assistant to balance the motorcycle and one other person directly behind the sound meter operator.
- D2.2 The test area should be a flat, open surface free of large sound-reflecting surfaces, such as a parked vehicle, buildings, signs, and hillsides, within 16 feet of the motorcycle being tested.
- D2.3 The surface should be free of loose soil, snow or grass higher than 6 inches.
- D2.4 The surrounding sound should not exceed 90 dB/A within a 16-foot radius from the motorcycle during the test.
- D2.5 Always use a windscreen under windy conditions. The stationary test procedure should not be conducted if the wind speed is 20 mph or higher.
- D2.6 If wind is present, the motorcycle should be positioned so the wind blows back to front. This allows mechanical sound to blow forward, away from the microphone.

- D2.7 Test should not take place in rain, snow or excessively damp conditions.

D3 Guidelines for Measuring Sound

- D3.1 For initial sound control and technical inspection, a rider (or his mechanic) shall present only one spare silencer per motorcycle.
- D3.2 Other spare silencers may be presented after all participants have presented their motorcycles, or on the following days of the event.
- D3.3 During the sound test, only the rider (or his mechanic) may sit on the motorcycle in the normal riding position and will follow the directions of the sound test official. No other team personnel may influence the sound test.
- D3.4 The sound reading should be taken with the microphone placed at 20 inches from the exhaust pipe at an angle of 45 degrees measured from the center-line of the exhaust end and at the height of the exhaust pipe, but at least 8 inches above the ground. If this is not possible, the measurement can be taken at 45 degrees upward.
- D3.5 Attach an electric tachometer or set the vibrating reed tachometer to the test RPM.
- D3.6 Make sure the engine is warmed up and the transmission is in neutral.
- D3.7 Have the vehicle operator slowly increase the engine speed to the test RPM.
- D3.8 Have the rider or assistant read the meter of the electric tachometer, or have the rider or assistant hold the vibrating reed tachometer against any solid part of the vehicle.
- D3.9 Have the vehicle operator or assistant signal when the correct RPM is held (e.g., by tapping his foot).
- D3.10 Read the sound level meter when the correct RPM is held.
- D3.11 All silencers will be marked once they have passed the sound test. The silencer shall not be modified after it has been marked.
- D3.12 Silencers fitted with removable end cap/adapters aimed to reduce the sound levels shall be marked and securely mounted to the silencer. If the removable end cap/adaptor becomes separated from the silencer during any practice/qualifying or race, the silencer will be deemed modified and the rider will be penalized.
- D3.13 The silencer may only be exchanged with a spare silencer that has also been checked and marked for that motorcycle.

D4 Sound Testing Corrections

- D4.1 Always round down the meter reading; that is: 100.9 dB/A = 100 dB/A.
- D4.2 Type 1 Meter: deduct 1 dB/A
- D4.3 Type 2 Meter: deduct 2 dB/A
- D4.4 Below 50 degrees Fahrenheit: deduct 1 dB/A
- D4.5 Below 32 degrees Fahrenheit: deduct 2 dB/A

Tire Testing Procedures

- E1 Tire testing will be done at the discretion of the AMAP officials. Refusal to allow testing to be completed will result in disqualification without exceptions.
- E2 Testing may be conducted on tires used by the top five finishers during the current event only – selection of tire is at AMAP discretion.
- E3 Tire testing may include use of a durometer, sniffer and sample evaluation by Blue Ridge Labs.
- E4 Prior to removal of a tire sample for testing by Blue Ridge Labs the competitor will sign a release stating that he understands:
- The test will be performed by Blue Ridge Laboratory and if the sample is found to not conform to the benchmark tire specifications they will be disqualified.
 - Additionally, AMAP cannot be sued, litigated, or challenged based on the findings of the lab test.
 - The lab test will prevail as the final ruling in the tire inspection process.
 - If the competitor chooses not to sign the waiver they will be disqualified for refusing inspection.
- E5 When samples are to be sent to Blue Ridge Labs, AMAP tech official will remove four (4) sample strips from the tread of the tire 1 – 2" long.
- E6 The samples will be placed into a vial by the competitor and then the vial will be sealed.
- E7 The sealed vial will be placed into an evidence bag and signed, dated and numbered by the competitor and inspector.
- E8 The witnessing AMAP official will send the sample to Blue Ridge Labs for testing.
- E9 Blue Ridge Labs will test the sample in comparison to a sample provided to them by the tire manufacturer.
- E10 Blue Ridge Labs will declare the tire to conform or not conform to the benchmark sample from the manufacturer.
- E11 If the sample conforms to the benchmark the competitor will be declared within the rules.
- E12 If the sample does not conform to the benchmark, the competitor will be found in violation of the rules and will be disqualified.
- E13 Tire testing may be requested by any rider participating in the event with the bike using the tire to be tested by submitting a written protest to an AMAP official within thirty (30) minutes of the first bike in the event arriving in the tech tent.
- E14 A protest may only be filed against bikes finishing the main event.
- E15 The individual making the protest must include the following:
- Bike # and rider being protested
 - Date and time of the protest

c. Bike # and rider filing the protest

d. Event

- E16 The individual making the protest must include \$1000 cash per tire being protested with the protest.
- E17 The cash will be returned to the person making the protest if the tire is found to not conform per the procedure outlined above.
- E18 The rider found to have used a tire that did not conform will be disqualified and subject to a fine equivalent to all testing costs.
- E19 If the tire is found to conform per the procedure outlined above, the protesting rider will not receive his \$1000 back and the rider that was protested will not be disqualified.
- E20 AMAP reserves the right to test any tire of any rider at the expense of AMAP. If the tire is found to not conform to the benchmark sample provided by the tire manufacturer, that rider will be disqualified and will be charged \$200.
- E21 Sending the sample to Blue Ridge Labs. Send all samples with a phone number and a return address where results should be sent to:
