

2017 Rear Tire Discount Program

For the 2017 season as AMA Pro Racing and Dunlop introduce the option for AFT Twins competitors to choose between 2 tire compound options at certain events, this program is introduced to allow competitors the ability to defer some of the costs of the second tire purchase.

To take advantage of this discount, the following rules apply:

- Only available at venues where an option is available by rule
- Only available for track side sales
- Not available for online, phone or pre-event sales
- Tires must be purchased on one transaction and must be one of each of the two available compounds. Example- when a choice is available of R5/R8, invoice must be for one of each
- First tire is billed at full price; second tire is billed at 50% off price in effect at that time
- Competitors must be prepared to present their AMAP License to take advantage of this program
- Only available to competitors who have pre-registered for the event
- This offer is limited to AFT Twins competitors and is not assignable
- Limited to one rear tire at the discount per competitor/per event where choices are offered

AMA Pro and Dunlop reserve the right to modify or eliminate this program at any time
